Financial Responsibility

The financial responsibility for the operation of this ministry lies with each member of this program. Such responsibility is needed to further the program's benefits and to perpetuate the growth of this ministry.

There is a one-time, non-fundable admission fee of \$1,900 upon acceptance into the Regeneration Program. The admission fee includes the first month and all entrance fees (group therapy, books, etc). Thereafter, the cost for your stay at Genesis Ministries is \$700.00 per month for the Regeneration Program. Any monies paid to Genesis Ministries are non-refundable. Upon admission, residents are required to submit TB/HIV/HEP-C tests. If resident has not received the required health tests, he can receive them from the Cherokee Health Department for a charge of \$100. Any subsequent donations will be allocated for growth and expansion. It does cost us much more to house each man.

The minimum stay at Genesis Ministries is 8 months.

The staff members of Genesis Ministries are willing to invest time, talents, and financial resources to help you while you are here. In turn, we expect you to help others receive the same benefits you have received.
