# PRODUCT SPECIFICATIONS

## Panel Track Profile

- White painted aluminum profile.
- See mounting depth requirements on page 21 for panel track sizes.

## Panel Track Splice

- Automatically comes with any window opening over 144" wide – track ships from factory in (2) equal size pieces.
- Recommended (request when placing order) with window openings over 100" wide to reduce risk of freight damage and provide easier handling by installers.
- Splice plate easily & securely connects separate tracks together to operate as a single track unit.
- Installers prefer the convenience of handling smaller tracks on the job site, then connecting together at installation.

## Panel Size / Stacking Width

- **12" Minimum Panel Width** (includes 3" for overlap).
- **12" Minimum Panel Height.**
- **46" Maximum Panel Width** (includes 3" for overlap).
- **144" Maximum Panel Height.**
- individual panel size varies depending on overall shade width & panel configuration.

NOTE: The smaller the panel width, the narrower the stacking space

To calculate stacking width; overall width + (number of overlaps x 3) then divide by number of panels

*Example # 1 – 3 panel 112" W + 6 ( 2 overlaps x 3 = 6) = 118 divide by 3 panels = 39-3/8" stacking / panel width*

*Example # 2 – 4 panel 112" W + 9 ( 3 overlaps x 3 = 9) = 121 divide by 4 panels = 30-1/4" stacking / panel width*

# PANEL TRACK HOW TO MEASURE

**Note: Projection of window handles / cranks could interfere with panel track panels.  
Refer to "mounting depth requirements" above for projection clearance**

## Inside Mount (IB) Installation - Window

To find width: Measure the opening across the top where the headrail is to be installed from inside of jamb on left to inside of jamb on right. **Round the measurement down to the nearest 1/8". Refer to mounting depth requirements.**

Inside Mount

To find height: Measure from the inside top of the opening on the left, at the center, and on the right to the sill; **round the measurement down to the nearest 1/8" and note the smallest dimension.**

**Do not make any allowances: the factory will make all adjustments so the headrail will fit the opening properly and the panels will clear the sill by 1/2".**

## Outside Mount (OB) Installation – Window

To find width: Measure the width of the area to be covered at the place where the headrail will be installed to the nearest 1/8". Blind should overlap **opening at least 4"** on each side to ensure privacy. To calculate stack dimensions, refer to page 7.

Outside Mount

To find height: Measure the height of the area to be covered and **round down to the nearest 1/8"**. Blind should extend at **least 3" above and 3" below opening or window moulding.**

## Outside Mount (OB) Installation - Patio Door / Room Divider

To find width: Measure the width of the area to be covered at the place where the headrail will be installed to the nearest 1/8". Blind should overlap opening at least 4" on each side.

To find height: Measure the height of the area to be covered and **round down to the nearest 1/8"**. Blind should extend **at least 3" above opening or window moulding.**

For ceiling-to-floor installations, deduct 1/2" for proper clearance.

Specifying OM measurement means the factory makes no allowances.

### Special Measuring & Installation Considerations

**Caution: Panel Tracks installed on windows near wall or baseboard heaters must clear the heaters by 12" above and 6" to the side.**

Stretching of panel materials is probable with Textured materials:

IB Mount - we do not recommend IB mount due to probable stretching

OB Mount - extra adjustment recommended for placement of mounting brackets allowing panel clearance above the floor to anticipate panel material stretching:

- material can stretch up to 1" length

## WARNING

Young children can **STRANGLE** in cord loops. They can also wrap cords around their necks and **STRANGLE**.

### Child Safety Cord Tensioner

Attach the cord tensioner on the cord loop to the wall or window casement. This can prevent children from pulling cord loops around their necks.
