## Social Justice Lessons and Resources 2025

The lesson & resources contained in this section are meant to provide a starting point for those wishing to integrate teaching about or acknowledging important social justice dates or observances throughout the year.

Each document is meant to be a 'living document.' If you have additional resources, lessons or other material that could be added to one of the documents, please email these suggestions to the NWTU at [nwtuadmin@telus.net](mailto:nwtuadmin@telus.net). A committee will review these recommendations and make changes as appropriate.

You may also notice that some observances or social justice dates are missing. Committee members continue to work on documents which will be added as they become available.
