

Meet Avion's Basement Models

AVION

**CONVENTIONAL AVION CONSTRUCTION
UNCONVENTIONAL ABUNDANT STORAGE**

Meet Avion's two basement storage models. These have been designed for full timing or long term, seasonal vacation travel. Avion's basement models have these distinct differences:

- *Dual Furnaces — controlled heating*
- *Increased Fresh and Waste Water/Holding Capacity — greater range*
- *Triple Entry Steps — personal convenience*
- *Flat Inside Floor — no wheel well intrusion, more storage*
- *Central Utility Compartment — hookups protected*
- *Extra Capacity Exterior Compartments — great storage*
- *Concealed LP Tanks/Battery Compartment — security*

34XB

This new model has spacious living areas throughout. HIGHLIGHTS — intimate front living room and full walk-through bath with alternate privacy provisions; queen size bed. Options (1) twin beds (2) side Presto Bed® or Magic Bed®.

34VB

This traditional plan offers three distinct living areas. HIGHLIGHTS — the Presto Bed® converts for guest and family sleeping. The living room can be made night-time private with the folding wooden door. Abundant wardrobe storage is found throughout. Options (1) double bed, vanity (2) front Presto Bed® or Magic Bed®.

Prices and specifications are subject to change without notice. Selected decorator items shown in the photographs are not part of the product unless specified. All fuel and liquid capacities are approximate and dimensions are nominal.

Avion Hidden Features

Wall Construction

In line with traditional aircraft construction, Avion's inner aluminum wall and outer aluminum skin is supported by aluminum ribs and stringers. The Thermo-X™ insulation is foamed in place and creates uniform thermal and sound insulation throughout. New Dura-Brite® exterior offers easy maintenance and superior finish.

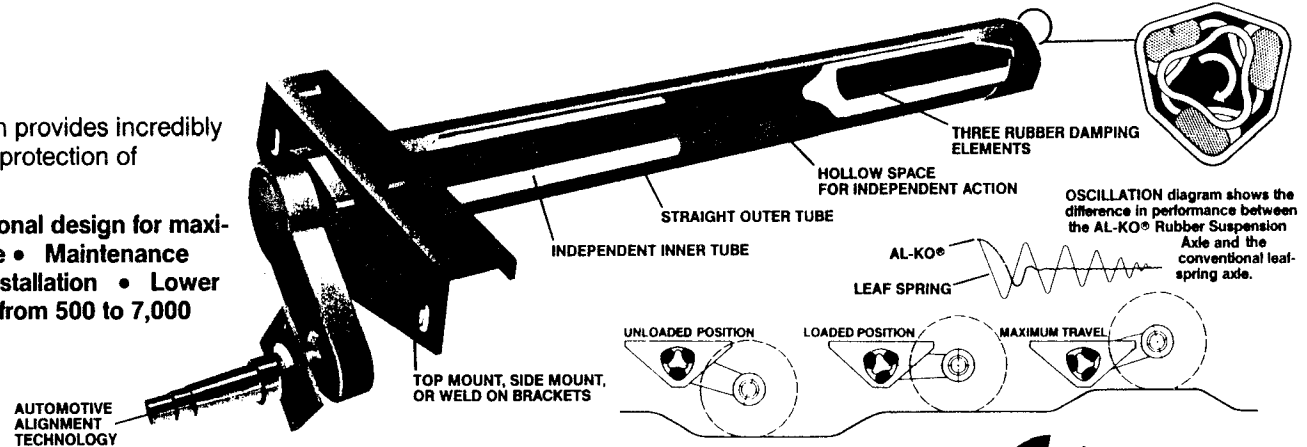

Floor Construction

Floor construction assures the strength, durability, and convenience you expect from Avion. All water and plumbing lines are contained within the floor and protected by the full length all metal underbelly. Basement floor construction differs somewhat.

AL-KO® Suspension

Tested on Europe's Auto Bahn, AL-KO® suspension provides incredibly smooth towing and handling — for your safety and protection of on-board personal goods.

Fully independent suspension • Patented hexagonal design for maximum shock absorption • Safe, smooth, quiet ride • Maintenance free, no metal to metal contact • Faster, easier installation • Lower center of gravity, improved stability • Capacities from 500 to 7,000 pounds • Manufactured in U.S.A.
