

Today's Objectives

- Today's Fundamentals
- Understand the navigation of FamilySearch
 Family Tree
- oldentify items on the screen that will help you navigate
- Edit people in your tree

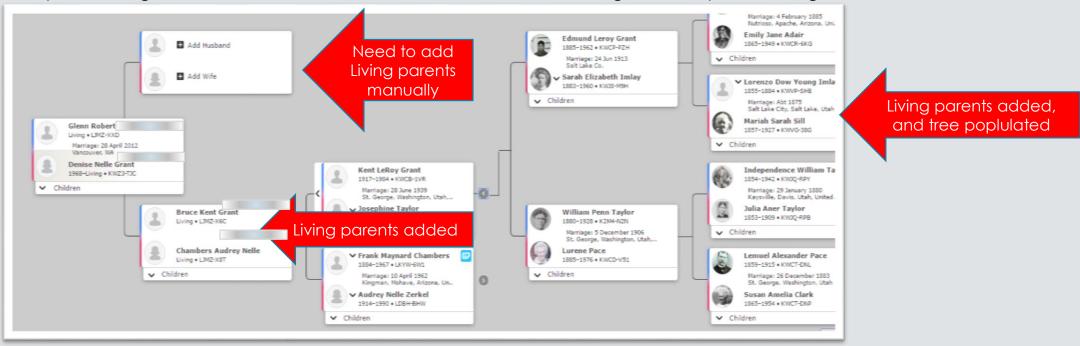

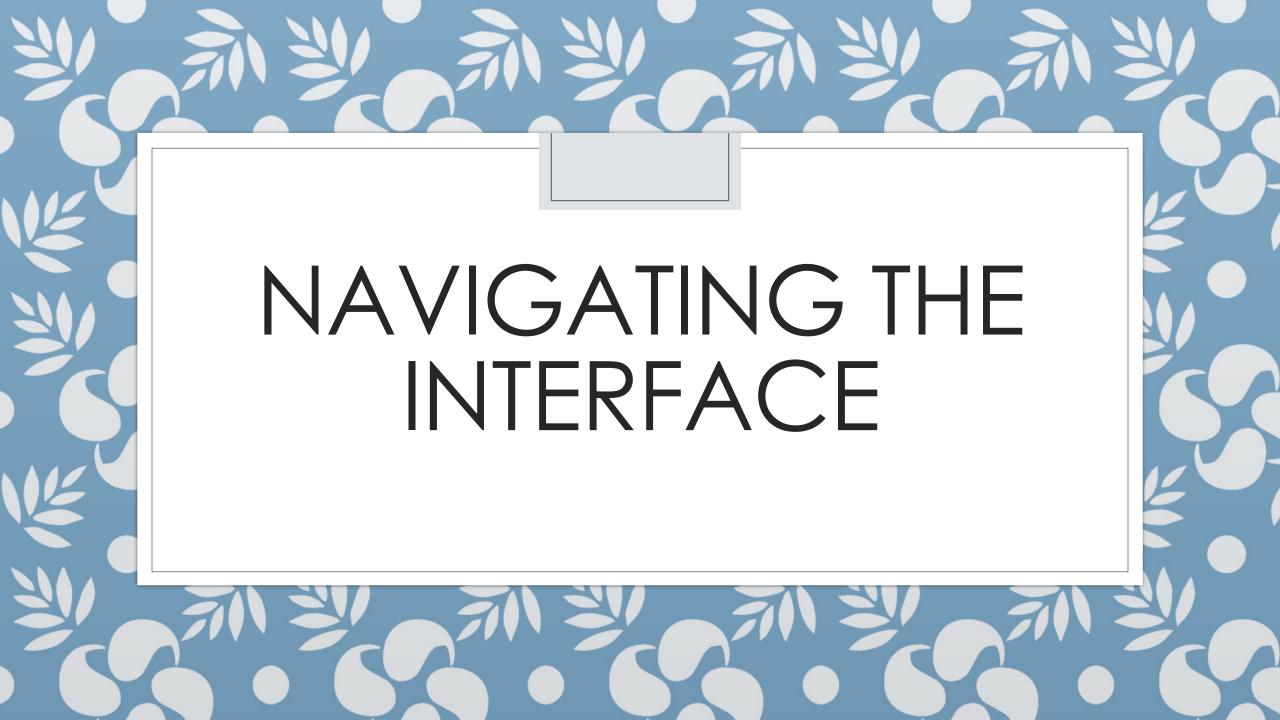

Today's Fundamentals

- We'll bring up a few every class
- Everyone can see and attach records for the deceased
- Only the original contributor can see a living record
 - Due to privacy rules

Private Spaces

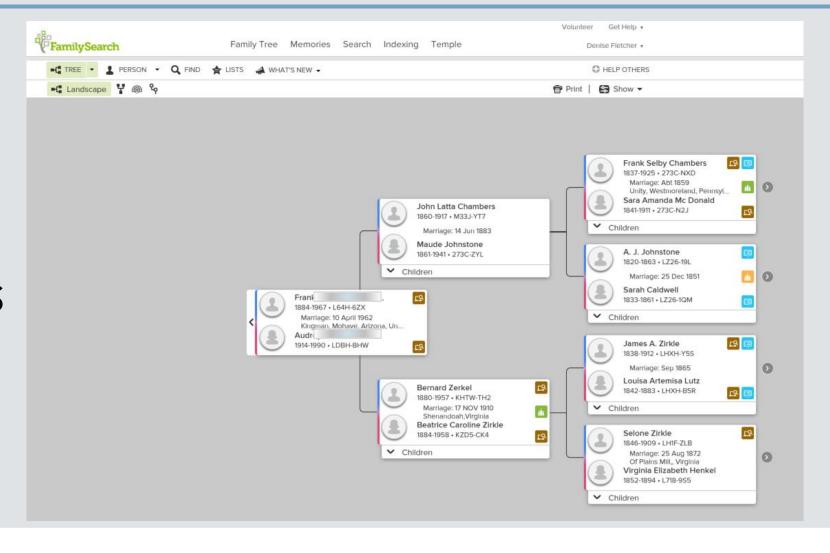

- Individuals that are living can be added to your tree by hand
 - They must be individually added to everyone who wants to see them
- Then connect that living person to their parents and your tree will populate
