

OMB Build-Off 2019 Classes and Rules

Welcome to the OMB 2019 Build-Off! This year we are streamlining the classes and simplifying the rules. There will be four classes this year. Start date January 1st, 2019 and deadline is February 1st, 2019. You will not be allowed to enter after February 1st, 2019. The end of the competition is May 31st, 2019.

If something doesn't seem clear, or you have a specific question not covered here, please feel free to post it here, or PM the moderator (Havasu Dave) of this event.

Vintage Class:

Any bike 30 years old, or older. (1989 and older) Any engine, any drive train, any modifications.

International Class:

Any machine where the bulk of the components were produced outside of America. Any engine, any drive train, any modifications.

18 and Under Class:

Primary builder must be age 18 or younger. Any machine powered by any engine.

Anything Goes Class:

This class is for anything not covered above. This includes 3 or more wheels.

How to Enter/Rules:

A common "item" will be announced on December 31st, 2018. To enter, take a photo of your project and that item and post it under the appropriate thread under the 2019 Build Off section.

Machines must be less than half way completed as of January 1st, 2019.

One machine per class, enter as many machines as you like.

A video of someone operating a running project under its own power will be required prior

to May 31st, 2019 in order to be judged.

Voting will be done by a popular vote by your peers here on OMB Forums. No awards, prizes, or trophies will be awarded, but winners will get bragging rights!

Gaining and keeping interest in your build are key factors in popular vote judging, so post good photos, and post often.
