

## Dental Implants

For many men and women in San Antonio, dental implants are a great way to restore form and function after losing or chipping a tooth. Tran Dental is a full service dental clinic that offers many orthodontic services including dental implants. We can help restore your beautiful smile and improve the functionality of your current teeth. Dental implants are significantly stronger than bridges or dentures and utilize a titanium screw for permanent fixture.

Don't delay. Schedule your dental implant consultation today. Our friendly and professional staff will evaluate your teeth and give you recommendations on implants or other work that may help with your overall health and hygiene. Implants are fully functional and just as strong and natural teeth. You don't have to put off improvements to your smile with our flexible payment plans and financing options. We want to help you smile today!

Contact Tran Dental for San Antonio dental implants today. CEREC is available at our two conveniently located San Antonio locations. We accept children's Medicaid and most major insurance. We offer personalized and gentle care by highly trained staff in a comfortable and relaxing environment. We are also pleased to provide flexible financing with affordable payment plans. Contact us today for more information or to schedule your appointment.
