Jody Russell

Her work is at Corrales Fine Arts

www.CorralesFineArts.com

I've enjoyed creating animal sculptures in various mediums for 35 years. Once I can see a project in my head, I strive to make it come to life. I was excited as soon as I saw the propeller and the idea for "Bosque FlyWay" was just hours behind.

This innovative "canvas" gave me a chance to rekindle skills that I haven't used for a while--woodcarving, wood burning, beadwork, gourd art, and painting.

Humor and laughter play a big part in all my work. Thanks to Angel Flight for the chance to play with a propeller!

You can see some of my latest garden animal sculptures at:
