

100% NEWBERRY GROWN CERTIFICATION

Producer Agreement

The 100% Newberry Grown certification certifies food and agricultural products are grown, raised, or created in Newberry County. The certification means items marked with this stamp are certified local, and helps buyers and shoppers know when they are spending dollars to benefit the local family farms and communities.

Producer Certification Requirements

To become 100% Newberry Grown certified and market products with the 100% logo, the farm must meet the following standards.

1. The farm is located in Newberry County, SC.
2. The farm is a family farm – one in which the family hold the financial responsibility, takes the risks, and provides the majority of the management decisions for the farm.
3. The individual applying for the certification is the farm owner or manager.

Logo Usage Standards

- Produce products: Fruit and vegetable products must be grown in Newberry County.
- Meat products: The animal must have spent 75% of its life after weaning in Newberry County.
- Nursery plants and trees: Plants and trees (at the point of sale) must have spent at least 75% of life beyond propagation, or 6 month, in Newberry County.
- Processed products: Food products are required to be processed in Newberry County to be 100% Newberry Grown certified. It is strongly recommended that at least 50% of the ingredients come directly from Newberry County, but not required at this time.

Farmers and producers that meet these requirements are authorized and encouraged to use the 100% Newberry Grown logo at the farmers market, and related materials.

Failure to comply with the terms of this agreement shall result in an immediate termination of the use of the logo. Authorized Farmer's Market organizers reserve the right to perform an on-site inspection to assure compliance with the above standards. The Board of Directors may revoke any certification, at any time.
