

MAJOR Jar Tester JT 800-A

This equipment is designed for testing drilling jars. The hydraulic unit provides steady pushing and pulling force to the jar in order to test for activation time and pressure.

Description		Specification SAE - (Other)
1	Total Weight	9920lb - (4500kg)
2	Jar Tester Dimensions (LxWxH)	41.83x2.39x2.43ft - (12750x730x740mm)
3	Console Dimensions (LxWxH)	3.33x3x3.52ft - (1016x914x1074mm)
4	Power Supply	AC 3 Phase
5	Voltage / Frequency	240/380/460 – 50Hz
6	Motor Power	14.75HP - (11kw)
7	System Pressure	2900psi - (20Mpa)
8	Maximum System Flow Rate	7.93GPM - (30L/min)
9	Cylinder Stroke	25.60in - (650mm)
10	Maximum Suitable Jar Diameter	9.50in - (240mm)
11	Jar Length Range	86.61-393.30in - (2200-9990mm)
12	Maximum Tension	179,847lbf - (800KN)
13	Maximum Pressure	2900psi - (20Mpa)
