A journey to awareness and enlightenment

With Margie Kay

For seekers of advanced esoteric knowledge

## Bio for Margie Kay

Margie Kay is the daughter of a Wizard. She was born with natural psychic abilities and through study, meditation, and training directly from spirit guides and star beings has developed expanded awareness and skills. Margie is clairsentient, clairaudient, and clairvoyant. She sees inside the human body using X-ray vision she was given in 1985 by Valiant Thor. Margie has helped law enforcement and private investigators solve over 50 cases and she is now known as an international psychic detective.

Kay is the CEO of a fire investigation company and chimney restoration contracting company, and is the co-owner of a real estate investment company. Kay has served on numerous national boards and is considered to be an expert in her field(s), teaching professionals how to do their job better. Margie is the publisher of two magazines and has written 12 books. She is currently working on two documentaries and three books.

Margie is the Director of Quest Paranormal Investigation Group, Assistant State Director for Missouri MUFON, host of Un-X News Radio show on kgraradio.com, and publisher of Un-X News Magazine. She has been interviewed on numerous radio shows including Jeff Rense, Jimmy Church, Joe Montaldo, and others. She has appeared on the TV shows Hangar 1 and Strange, as well as CNN news and local news programs.

Margie uses both sides of her brain equally, which is out of the norm, and her IQ has increased along with her awareness. Until, now, Margie has not shared all of her abilities with the public.

Margie was instructed by her spirits guides that “Now is The Time”—in other words, now is the time for her to share with others how they can reach their full potential. It is time to awaken the planet, and as a part of this movement, Margie has been assigned to develop a hands-on workshop in order to teach others what they need to know to move forward more quickly, expand their mind, and activate their dormant DNA.
