

DESCRIPTION

BOBBITT is a penetrating sealer and water repellent that is formulated to provide durable, long lasting protection to above grade wood, brick, concrete, stucco, EIFS (synthetic stucco), block and other masonry surfaces.

BOBBITT contains special ingredients that cause a distaste to animals and birds (including woodpeckers) when they attempt to penetrate the surface by biting.

BOBBITT increases the durability of any surface by locking out abrasive dirt and other substances (including mildew, algae and other pollutants) from the pores of the surface.

BOBBITT has special additives to RETARD THE GROWTH OF MILDEW, MOLD, ALGAE and OTHER SPORES.

ADVANTAGES

- Safe on E.I.F.S. (Synthetic Stucco)
- Durable and Long Lasting up to five years
- Repels animals & birds
- Vapor permeable
- Dirt and Pollutants will wash in rain
- RETARDS THE GROWTH OF MOLD, MILDEW AND ALGAE
- Excellent Coverage - To 500 sf per gallon

WHERE TO USE

- Wet and humid climates
- E.I.F.S.
- Wherever water, mold, mildew and algae are problems
- Wherever animals and birds cause damage
