

PRODUCT INFORMATION

FUEL FORCE™ MILEAGE TRANS4MER™

Deposits in fuel and emission systems can cause a multitude of performance issues including: power loss, decreased mileage, failed emissions, hard starting, rough idling, hesitation, and much more.

Carbon, varnish, and gum deposits build up gradually, and we don't always recognize performance loss until it's severe. Carbon never sleeps, and left unchecked, these deposits can translate to safety concerns, performance loss, and costly repairs. They can even shorten the life of your engine.

BENEFITS

NGEN's Fuel Force™ Trans4mer™ will give you the most powerful results ever! This revolutionary, cutting edge formula is complex and delivers 85% active ingredients. This Carbon Crusher™ has powerful cleaners, solvents, and detergents to remove damaging carbon deposits safely and quickly in just one tank of gas.

But wait, there's more! An additional friction fighting ingredient will give consumers immediate improved performance they can feel.

With no delivery tools or vacuum sources required, happy customers will be in and out quickly, and you don't have to worry about difficult applications. The Mileage Trans4mer™ will deliver better mileage improvement and smoother performance than a traditional two-step.

One Pour Does More!™

DIRECTIONS

Pour 1 bottle into gas tank. For best results, it's recommended to fill the gas tank. Must have at least ¼ of a tank of gas. 1 bottle treats up to 21 gallons at maximum effectiveness.

Safe for all gasoline engines and fuel types.

For best results, use with vehicles under 100,000 miles.

*Not recommended for use in diesels
