Exhibit 2. Rate Schedules Offered by FERC-Regulated Pipelines and Storage Companies DRAFT

- 103- Only one HRS agreement can be in effect at any delivery point; maximum hourly rate of 1/24, 1/20, 1/16, 1/14 or 1/12 of MDQ as specified in agreement, receipts to be at uniform hourly rates
- 104- Subject to sufficient forward haul volumes
- 105- Hub service; physical points within hub defined on website, and subject to change
- 106- Supports hourly nominations
- 107- Transporter has no obligation to deliver hourly flows of more than 6% MDQ *but may agree to a lesser percentage.*
- 108- Shipper must have associated CSS agreement in place
- 109- Made up of FTS and FSS; between 1/3 and 1/2 of deliveries must be from supply, 1/2 to 2/3 must be from storage
- 110- Ratchets more restrictive than under FSS
- 111- Enhanced falls between firm and interruptible in priority
- 112- Tennessee supports hourly nominations for all indicated rate schedules between 10 p.m. and 8 a.m.
- 113- No-notice delivery service (Storage Swing Option) available with associated storage agreement
- 114- Available to shippers previously under Rate Schedule NET; 11 shippers under this rate schedule with aggregate MDQ of about 150,000 Dth
- 115- No-notice service available with associated firm storage agreement
- 116- Rate is offered pursuant to 20+-year-old FERC orders; hourly flexibility allowed to match that allowed by Iroquois; no flow restrictions on Shippers previously served under NET-Niagara rate schedule; three shippers under this schedule with total MDQ of 21
- 117- No-notice service supported where FT-1 receipt point is no-notice delivery point in associated service agreement under rates CDS, SCT or SS-1
- 118- Applicable to Viosca Knoll Lateral, a gathering line in the Gulf of Mexico
- 119- Character and priority of service and hourly flexibility per negotiated service agreement
- 120- Applicable to or from CNG Points as defined in service agreement
- 121- Applicable to forward- or backhauls to or from points on Equitrans
- 122- Available to current IT-1 customers formerly under rate schedule SS-2
- 123- Applicable to portion of storage (if any) associated with CDS, FT-1, SCT or IT-1 agreement which is not no-notice
- 124- Allows pre-injection of gas (via either actual receipts or displacement) for balancing under TABS-1 agreement or to avoid operational problems.
- 125- Available to current IT-1 customers previously under rate schedule SS-3
- 126- Hourly flows up to 1/16 of MDQ allowed
- 127- Customer shall provide its own Unnominated Gas Quantities for storage component of no-notice service
- 128- Optional addendum to firm service agreements allows nominations every two hours on two-hours notice
- 129- Allows relaxation of hourly delivery limits otherwise in effect under any transportation service agreement
- 130- Customer nominates transportation, swing is handled through no-notice storage during the summer
- 131- Customer may also obtain liquefaction or vaporization service if available after LSV customer nominations have been satisfied
- 132- Receipt and delivery points may be upstream of Carlstadt, NJ LNG facility, but not interconnection with other interstate pipeline on a secondary basis; withdrawal quantities nominated and scheduled at secondary points not available for "swing" service
- 133- Storage is provided by Dominion and NFG, rates are derived from Dominion (GSS) and NFG (SS-1) rate schedules
- 134- Storage is provided by NFG (Wharton), rates are derived from NFG's rate schedule SS-1 (storage) and X-54 (transportation)
- 135- Applicable to Order 636 conversions from firm sales agreements under previous Rate Schedules G & OG; has to be used before other transportation entitlements, cannot be released
- 136- Shipper may take between 90% and 110% of scheduled quantity, must pay IT rates for over- or under-takes; swing option not available
- 137- Storage is provided by TETCo under rate schedule X-28
- 138- Applies to transfers between pipeline interconnections within 50 miles of each other
- 139- Truckload deliveries; gas must be returned via pipeline transportation within 10 days
- 140- May make up to one nomination per hour until 4 p.m. Central Time
- 141- Hourly flows between 50% and 150% of ratable takes permitted
- 142- This is no-notice firm storage service that is associated only with SST rate schedule
- 143- This is no-notice firm storage service that is associated with firm transportation agreement that include Epps storage field as primary receipt and delivery point
- 144- Deliveries by truck with same day replacement via pipeline receipts
- 145- Connected to Dominion, NFG, Tennessee and Transco in Leidy area
- 146- For automatic balancing of nominations under FSS agreement
- 147- Intraday nominations on 1-hr notice allowed any time
- 148- Maximum hourly deliveries to be between 1/4 and 1/16 of MDQ as stipulated in service agreement
- 149- Applicable to pre-conversion customers with authorized overrun service under Rate Schedule AO or T-9
- 150- For no-notice service under Rate Schedule FT-1; must have associated FS-1 agreement
- 151- Transporter not obliged to deliver more than 6.2 percent of MDQ in a given hour
- 152- Rate schedule includes service option for storage-based load following and hourly/daily balancing services that are designed to match the dispatch profiles of gas-fired electric generation facilities; hourly nominations and no-notice service also available
- 153- Applicable to transportation by back-haul or displacement that creates forward-haul capacity.
