

# THE DOCTOR'S HOUSE

## University of Toronto

Once again we express our sincere gratitude to our patients for giving us the opportunity to teach senior medical students and resident doctors in our office. Dr. Kim van Wyk will be finishing her program in 2019. It has been our pleasure having her in our office since July 2016 as our family medicine resident.

## Sport Medicine

We wish to thank Dr. Sari Kraft who spent every Thursday in our office for 3 years until last spring. She saw a mix of our family medicine patients as well as serving the sport medicine needs of our community. Dr. Kraft has consolidated her practice closer to her home downtown. Dr. Carson continues to see primary care and consultation sport medicine in our office.

## Annual Service Fee

Our fee has not changed for many years. Please see the invoice attached.

## Volunteer, Research & More

2018 was a very busy year for us. Dr. Carson was the lead volunteer doctor at the Canadian Synchronized Skating Championships held in Oshawa last February. In November he also volunteered for the World Junior Badminton Championships held at our Pan Am Centre down the street in Unionville. Dr. Carson's research on the return to school after a sport related concussion has led to a major government grant and the publication of a fabulous new resource. You can check it out at: [hollandbloorview.ca/SCHOOLFirst](http://hollandbloorview.ca/SCHOOLFirst). Teachers and school support staff across Canada will find this extremely useful. Thanks to K. Domik for the awesome photo above. Our practice passed the 35 year mark last August. WOW!!! So grateful for your trust!
