

## **MANDALAY BAY STILL WONT PAY**

[Excerpt from]

# **ONUG**

**< One Nation Undermining God >**

**by Sir Jeffrey Robinson a protected work © 2015**

**Life, is the precious bestowment to mankind from his Creator. And time, is the sine qua non of the careful plan for his amelioration until his life & work on earth is through.** When divided into 4 parts, the life expectancy of the average human being is just 4, very nebulous seasons of change. *“Within these seasons, humans experience a series of (seven year cycles) of personnel growth over their lifetime. And the physical, emotional & mental changes which occur, are relative to the individual’s makeup & the influences of his or her environment”.* Thus, **justifying the preeminence of the admonition to redeem your time.** [Put another way, to help illustrate more clearly how this breaks down;] The first season begins at birth & on through what are the developmental years, & is directly contributive to the individual’s measure of exertion to gain independence. And the hierarchical system, who as well are familiar with these certainties of life, & understand all too well how the system works, will inevitably influence the circumstances which determine your life, but ultimately, only proportionally to your personnel resolve. Among the upper echelons of that hierarchical system, are those who are perpetually seeking to find a window or doorway to your inalienable rights in order to undermine them, & will use financial, political & religious tentacles to wrestle your just rewards from you by undermining the authority you have been endowed with by your Creator, which is (Natures God), to lay siege to besiege you, & **rob you of your time** & ultimately your most precious gift. **Prevalent also, are citizens in lessor privileged echelons of society who are wolves in sheep’s clothing. Who would readily deliver you over into the hands of your enemies either out of envy, for financial gain or to serve an orientation of “superiority” Or perhaps for all of the aforementioned.** Skipping.

**For nearly seventeen tormentous years, or just shy of two decades, Jeffrey Robinson, a courageous young man, has endured relentless public & private persecution in ways which are unfathomable, when the powers that be, employed an unconstitutional system to abridge his rights following his victory in the federal courts with two civil suits for discrimination, race discrimination &**

## ***MANDALAY BAY STILL WONT PAY***

retaliation. The second suit filed in the federal courts was against the (state facility), North Public Health hospital in Seattle Washington, when he was discriminated against after being transported to Urgent Care for emergency treatment for an injury with a nebulous origin. Following a round of conferences with Robinson & the administrative staff at the facility concerning the disparagement, the miss- diagnoses, the ill treatment & the lack there of which subjected him to further serious physical injuries all of which were the deleterious effects of discrimination. Robinson carried his problem & concerns to the boardroom when members of the medical board were flown in for a conference in downtown Seattle Washington. Then following the meeting & an exhaustive search, for legal counsel, he retained civil rights attorney, Curman Sebree. A high regard for Robinson was expressed & a unanimous six figure offer to settle followed almost immediately. And on the advice of his counsellor, Robinson accepted the offer. But something unforeseen obstructed the settlement, causing it to be delayed for over a year. He later learned that his personnel & private life were invaded (by secret filming for disclosure of information which would be prejudicial), while his finances were being undermined. Residents & vendors with whom he did business were being told not to work with him & not to help him. Skipping. When the proceedings reconvened on the next level in downtown Seattle. Still under careful watch, a travesty of justice occurred when the original offer was replaced with an unprecedented insult of \$500. Turning the American judicial system on its head. And giving causeway to a darker cause & infuriating the plaintiff, who immediately launched his own investigation into what caused & made the (judicial flip) possible. Skipping.

The first suit filed was in Las Vegas Nevada, leveled against Mandalay Bay Casino, & included the charge of a Wrongful Termination. Based on his sterling reputation & his performance, Robinson gained employment with Mandalay Bay & moved into an executive position within a ninety day period, just prior to the grand opening of the casino. And was informed that he had Made History by earning his position. "We talked about it in a meeting. It's the first such appointment in the history of the entire corporation. They looked it up." Robinson was even informed later that an additional \$200,000,000 tower was being added to the casino & it was discussed in a meeting that he would supervise there exclusively over his department". Robinson's promotion went

## **MANDALAY BAY STILL WONT PAY**

into effect immediately when he was taken to the key room to have his keys cut & handed to him, giving him access to every area of the multimillion dollar casino. He was congratulated there & told again that he made history. And his position was announced to his co-workers who congratulated him as well & began to work immediately under his supervision. If you'll just be patient a little while longer, he was told by a supervisor who attended the meeting. You will supervise your department exclusively in the new tower. But a move to find a way to have him excommunicated followed, after a new (white male) employee, who harbored an aversion to his promotion bellowed to fellow employees that the position which he held, should automatically be reserved for a white male. "What is so special about him that he should get that position? That position should automatically go to a white man", he brazenly stated. Even directly to Robinson. And notwithstanding complaints lodged by co-workers & Robinson carried to the executives in suits regarding the discriminatory remarks, the disgruntled employee, who was "juiced" into Mandalay Bay by an executive in a suit, remained protected & the complaints were simply ignored. But even in the midst of increasing tension & subtle acts of discrimination towards him, Robinson remained focused on doing his job. And when he followed up on his hunch, (made possible by his keys which gave him the access he needed), & went beyond his call of duties, he discovered that several suites which were elaborately furnished with imports & already locked & marked completed & ready for occupancy had wall to wall flooded floors with water cascading down the walls of the suites onto the floors of suites, one beneath the other, from water which had been released from inside of the walls. He was written up by Mandalay Bay engineers as a Hero for [saving the casino's ass]. Had the flood he spotted near the end of his shift continued, it could have resulted in monumental tear down & reconstruction cost of the (\$950,000,000), structure, as well as delaying the grand opening. Not to mention the personnel & emotional prisms which would have resulted from it as well. Nevertheless, shortly afterwards **Robinson was wrongfully terminated. He challenged the termination & immediately launched his own investigation. Which produced damaging evidence.** Then after an unsuccessful exhaustive search for legal counsel to help him start the wheels of justice grinding, **He found direction from Steve Wynn's office, after placing a phone call & having it reinforced that the acts being perpetrated against him were unlawful.** His

## **MANDALAY BAY STILL WONT PAY**

secretary then directed him to start with NERC in a subsequent call he made the following day to their office per her request. But after a successful meeting with a (white female NERC intake officer) was contradicted by a subsequent meeting with a (white male NERC officer), weeks later. **He called for an investigation from Mandalay Bay's Human resources department**, whose investigative work was indistinguishable from the irreflective NERC officer handling Robinson's counterclaim. As **they moved along slovenly, at what seemed, a snail's pace, with inconspicuous empathy towards his repeated expression that his need was poignantly urgent...** In the end, Mandalay Bay's human resources department only endorsed NERC's ruling in favor of Mandalay Bay who labeled his counterclaim an [Unsubstantiated Claim], ending their letter with Case Closed. And by doing so, {inadvertently set the wheels in motion for a deluge to test the underpinning & the fruits of a nation which has for so long proclaimed itself to be free}. He persisted by calling for an investigation from the EEOC, & provided them with the results of his ongoing investigative work. He then retained civil rights attorney, Nancy Killeen, who in their initial meeting at her firm, ask for time to check the facts before she agreed to represent him. The EEOC continued to work closely with him, as he continued to furnish them & his counsel with information, & EEOC eventually called for an informal hearing after ruling Mandalay Bay's & NERC's investigation [Unfair & Impartial]. Robinson emerged victorious, having all charges against him overruled & won the right to receive benefits as well as the right to sue. The termination was suspended & entered into the Federal courts as a Wrongful Termination, by Nancy Killeen, who later expressed concerns about being able to continue down the stretch, to the next federal level, against firms as powerful as those representing Mandalay Bay. Curman Sebree agreed to take over the suit & Killeen stayed on for matters having to do with jurisdiction. But Sebree bailed out of the Vegas suit within a few days of receipt of payment for services rendered for the North Public Health suit, which ended in a travesty of justice. Robinson relocated to Seattle Washington after being blocked from gainful employment in Las Vegas Nevada. But continued to be threatened & undermined by a determined group, who warned him not to pursue collecting. And even though it has not deterred him from doing so. He has been denied the restitution reflected in the original agreement to settle in the North Public Health suit in Seattle Washington, as well as even the minimum seven figure offer which opened negotiations to

## **MANDALAY BAY STILL WONT PAY**

settle years later by representatives for Mandalay Bay through Richard Segerblom, his civil rights attorney at the time of the offer which followed Robinson's victory in the proceedings, well over a decade ago. Near the end of the proceedings in the second round on the federal level in Las Vegas, Segerblom turned to Robinson & stated openly. "Well, they never saw it coming. You have everything you need to win. And you're a successful business person so they can't say anything there. You surprised them. They never saw you coming." After the proceedings adjourned Robinson left the court room to wait for his counsel in his rented car. While Segerblom remained in discussion in court. Later, when Segerblom met up with Robinson for the ride back to his firm, he said to him as he closed the car door behind him. "Well they must respect you a great deal because they made you a seven figure offer. I've never seen them do it before, so they must have a great deal of respect for you. They're one of the most powerful firms in the ... They have a reputation for completely annihilating the other side. In all of the years I've worked with them, I've never seen them do anything like this. So, they must respect you a lot. "Will you take the seven figure offer? Robinson decided to take the weekend to think the offer through carefully in light of what had already taken place with the Seattle suit following a unanimous agreement, when he accepted the offer with little hesitation on the advice of his counsel who he regarded highly. And considering the system which was employed from the moment he was promoted & has continued attenuating the process of administering justice in order to facilitate a judicial flip. But when Robinson returned to his home in Seattle, just less than twenty four hours after the offer was presented to him through his counsellor after court proceedings adjourned for the weekend. Something intervened & his inalienable rights were undermined to the foundation level, when he was assaulted while asleep after somehow being rendered unconscious. He awoke to find that his body had been shaved & a fluid administered underneath his skin, which puffed it up & began to alter his appearance. That is when the real American nightmare began, which has currently exceeded sixteen years. His preoccupation then became with trying to figure out what took place. He had concerns of an attempt to duplicate him & to covertly control him. He contacted a slew of high profiled civil rights persons in the country & others not as well known. He also contacted the Church, the surgeon general, & the governor. But with the exception of the Governor of

## **MANDALAY BAY STILL WONT PAY**

Washington's secretary returning his call twice on his cell phone urging him to keep them posted, he experienced, **NO RESPONSE!** Which only confirmed, that the venerated place once compassed for human dignity, had become a costly quagmire of acrimony & finger pointing. Since that time, he has been subjected to continued assaults which can only be characterized as **Crimes against Humanity**, They are horrifying acts, which openly contradict America's allegiance, or that of any nation proclaiming to be free or to be representatives of freedom & liberty who follow suit. It too, defies the logic which compels sober & competent minds to move in the understanding that a Universal Supreme Reign, whose wisdom, & prowess, exceeds the proficiency of mere men, demands justice that is Just, in order to protect its Sovereignty. And commands men even further, to recognize its power & ability, as well as its right to override justice administered by men, in order to remediate judgments which have been executed by a system whose spirit has clearly been corrupted & whose judicial curriculum is skewed. There is presently a quiet admonishment taking place to this nation that harks back to the creation of man when he was first bestowed with free will, a God conscience & the ability to walk upright. It is a severe warning to opportunist also, who begrudge the plaintiff his youth, his look, his physicality, his abilities, his Just rewards, & his right to continue his life unabridged. Simply put. This breach which has occurred, has all the trappings of being the product of careful aforethought, fueled by big money &, purposed to snub the one who emerges victorious from civil battle, whose autonomous mind is construed to be a threat. And whose corporeal property does not meet the criteria that affords ample comfort for the proboscis with a vested interest in maintaining the status quo. Notwithstanding this nation's time honored practice of doing homage to the universal God recognized in the U.S. Declaration & symbolized under their banner of freedom. Which reflects a commitment, to take the "higher ground to ensure a qualitative life." Moreover, the reserved right to fight for human rights is also a charge to each citizen to *agonizomai*, Greek for, "*engage in conflict*," that is Just. Being certain to move in wisdom & understanding, as well informed, to keep within the parameters of their mantle. It is a service to men & to mankind for which this nation has for so long enjoyed a distinguishable cachet. The agreement recognizes, prosperity & development to be obtainable under a yoke that is easy & a burden that is light. And for so long, this nation has openly cried out for God to guide & bless her for

## **MANDALAY BAY STILL WONT PAY**

the enabling of the continued work of making a way available for peace on earth & good will towards all men. And inculcates in her citizens the importance of recognizing the stones for human rights aforementioned, to be foundational for this nation's security & wave foremostly. All of that being said, & again, although this nation has demanded an allegiance from its citizens in recognition of a creed, rooted in the principles of [a higher Love which has already given mankind the right to be free]. Robinson has nevertheless been foolishly & unjustly encumbered with the superfluous task of suddenly having to prove there is a God, if he is to receive restitution for the egregious offenses perpetrated against him, & for the senseless criminal acts to cease. He is continuously excoriated for having had victory in his court room battles & for beating the system. And all at once, the accolated fruits, once deemed wise for their timeless exhortation to *stand for what you know is right. Even when the truth that you speak makes them so uptight*, are juiceless & passé. And the victories *from his* civil battles have been hollowed out. And the very system of enforcement that has been established to ensure restitution for the injured party have not visibly girded themselves for battle on his behalf or on behalf of the nation. *For if it holds true that peace is not merely the absence of violence, it is the presence of justice also. Then it is within equal reason, that where there is no justice, there can be no peace!* The plaintiff in these suits only needed to satisfy the *burden of proof* as it pertains to his civil suit. Any expectation which exceeds that legal requirement is unreasonable, unfair, unlawful & unjust. But apathy, has only given rise to a coterie of kindred spirits seeking to serve a darker cause at the expense of the whole thing. And these civil suits are emblematic of that larger concern. Still, the injured party has a protected, & reserved right for his expectation for the courts to render timely justice that is Just, without equivocating to be met. An expectation which when met, thwarts parties from holding a conference in an attempt to develop an *entente cordiale*. A move which fosters a miscarriage of justice. Even so, Justice was delayed & ultimately denied for the plaintiff in these suits. Making the foregoing a realized concern. And the system has been used, expressly for the antithesis of **what is its well defined purpose** in order to publically humiliate Robinson, deride him, & obstruct the restitution for his civil suits by robbing him of the ability to fight back & ultimately lay waste to him & to serve as an example. Skipping. **He has been denied media coverage also.** It is for this reason that Robinson has

## **MANDALAY BAY STILL WONT PAY**

created an avenue to make information which has been hidden concerning the injustices surrounding these suits available to the general public. **He writes under his Sir name. Sir Jeffrey Robinson** & therefore appears on both sides of the story. **All of the writing appearing here is his own uncompromised expression.**

**robinsonjeffrey2@yahoo.com.** Skipping. Shortly after Robinson was assaulted in his home in Seattle, & while he waited for the date for his return to court in Las Vegas to be calendared, he was called upon for a matter having to do with copyright infringements. **Robinson is the founder & owner of Pupcan Productions. Or PUPCAN Productions. People United Promoting Creative Artist Nationwide. Which he designed for global music, film, video & related production work.** During his looking into a matter involving copyright infringements, **he discovered that all his protected work was missing.** And that nothing showed up in the library of congress. **He also learned that all of his Masters were missing.** He informed his legal counsel that he was going to **London England for 2 weeks on business having to do with copyright concerns.** Skipping. **When Robinson returned to the United States of America 2 weeks later, he learned from his counsel after contacting him, that his civil suit had been dismissed.** When he asked why, his counsel responded with, 'Well, you went to Europe so your case was dismissed. Appalled Robinson stated that there was no legal grounds for dismissing his suits & demanded that they be reopened & Segerblom said that he would begin the process immediately. But **Robinson's wait was long & the cases were never reopened.** He returned to London England for another 2 weeks then back to the United States. Following that period he was stripped of everything equitable. He has been blocked from gainful employment & every area of his life has been destroyed. He was forced into living outside under treacherous conditions, without shelter for more than a decade, until he miraculously was able to purchase a vehicle. Skipping Just prior to his being forced outside, **the vehicle he owned then was flipped on the highway & totaled while he was traveling at high speed.** Miraculously, he survived it though all of his paper work & sensitive materials were removed. He miraculously cleansed his skin from the fluid from the first assault. But was warned that it would be administered again, but deeper so that he could not easily remove it. "There's no way you are going to get out of this situation looking that smooth. Without one mark on you after being on the streets for all of those years." He was told. Then his offenders made good on their threat

## **MANDALAY BAY STILL WONT PAY**

when he was rendered unconscious while asleep again. He has since, spent a decade cleansing his skin all over his body. Syringes were used to inject fluid deep underneath his skin covering every square inch. His skin was also stained in various places, & seven of his teeth were broken & additional ones cut along the gum line... Robinson's Beverly Hills dentist had raved about the condition & his maintenance of his teeth stating how he would never lose a tooth in his lifetime. And his dentist who examined him in Las Vegas raved also to other dentist about the look & condition of his teeth & how they had never seen anything like it. . While all of these things were done for reasons that are all too obvious. It was done also in order to cause him to give up his volition. The atrocities only continued after he reported them. Robinson has kept chronologies of the criminal acts. Skipping. Later, in Seattle Washington, he was run down by an SUV after ignoring threats to stop working out. To forget about the civil suit & not to look at women. He was rushed to Shoreline hospital for emergency surgery. Suffering from injury to his neck, broken ribs & a broken hip along with other scrapes & bruises. After leaving the hospital, he spent several weeks having to endure the harsh winter outside, in a wheel chair, trying to heal without the ability to have his prescriptions filled including pain medication. Then post-operative complications almost cost him his life after he was refused re admittance to the hospital after a serious staph infection set in. But his surgeon argued vehemently on his behalf, over a long phone conversation with the hospital. "This man could die! Do you understand that? He could die! I am not going to be responsible for him dying. Do you understand that my name is attached to his surgery also? I'm not going to risk my reputation because of this. He needs to be admitted immediately. She demanded." Skipping. His skin was injected again with a substance which stained it & changed his features. He was warned that everything would be taken from him in order to bring about the opposite effect in his life. He was threatened in a message with. "Do it again. Try it again this time without the concern for your rights." "We are going to remove the threat of having to be concerned about you winning anymore." "We're taking you downtown. We're taking you outside. We're taking your shit". *All of these atrocities occurred while Robinson's reports to government officials continued to fall on deaf ears.* Every photograph baring his image was taken from him. And any photo which was returned has been altered. That person is gone, he was told. You will not be allowed to be that person any longer. Say

## **MANDALAY BAY STILL WONT PAY**

good bye to your movie star looks & your physique. You'll never be the same. They were determined to not let him be in a position financially to regain his identity. It takes money to do it. And a lot of it. His passport was taken also. Robinson had a reputation in his life & throughout Hollywood California for his blemish free skin & for being impeccable. And running 5 to 10 miles daily along with a rigorous work out regimentation. Above 6 feet tall, he was always lean, (160-165) & in superb condition. The epitome of health. He was consistently solicited for commercial work. Injections were administered inside of his nostrils, & ears as well. His eye lids & around his nostrils, cheeks, chin & jawline. **"We're going to take that pumped up look of yours around your upper lip & give you a monkey lip."** He was told. He awoke to find that his upper lip had been injected. **The list of atrocities continued.** Practically every area of his body was injected. His identification was stolen in Ohio, Seattle, & Las Vegas. He was blocked from being able to reach anyone involved in his civil suits for the entire time he was held within the borders of Washington. He finally was able to break free in the end of November 2013, & headed immediately to Las Vegas Nevada. Once there, he contacted NERC, EEOC, the state bar, & the channel 5 news team Life, Time & People magazines as well as the local Police department. Nevada EEOC informed him that his paper work had been transferred to the EEOC in Los Angeles California. He phoned them & left a recorded message but never received a response. Skipping. He was unsuccessful however with being able to reach any of the attorney's connected with his suits. Skipping. **He finally was able to reach the lead legal rep for Mandalay Bay Casino.** After enquiring about the civil suits & stating what he had been put through, the rep ask. **"Did you get your money?"** Robinson answered with, **I haven't received money in any amount from this suit.** **"Well then you need to talk with your legal counsel."** Then he read him a letter which was sent to him from Segerblom. **My client has advised me to resend the seven figure offer & to dismiss the civil suit.** Robinson responded with. **I never authorized any such letter. No sane person would have done so.** **"Then you need to talk to Richard. I'm sorry for all that has happened to you but you need to talk to your legal counsel."** Robinson left several messages for Segerblom which went unanswered. Weeks later he was able to reach him by phone. Segerblom did not deny the letter but simply stated that he didn't return any of his calls because there wasn't any point. **"You're about ten years too late."** He said. Robinson responded by going over everything that he had been put through

## **MANDALAY BAY STILL WONT PAY**

for 15 years then said, **Richard, you're the attorney who worked on the suit. & now you're the senator. What happened to the restitution for these suits? You are a United States Senator aren't you Richard? Richard answered with, yes. Skipping... Later Robinson contacted Governor Sandoval. Skipping. "Well since you seem to be having some issues with the civil rights system, the only advice I can offer is for you to contact the FBI with your information."** Shortly afterwards Robinson's lap top was stolen. But he had managed to save his information & his work. Then his wallet containing several bank cards, his social security card, and his wallet sized birth certificate, his California driver's license & a host of other information was stolen from the library downtown. He is being continually blocked from receiving his social security card from the Nevada social security office. And has been blocked by the motor vehicles from renewing his registration. Currently there is a move to take his vehicle in order to put him back on the streets. **He has supplied the FBI with the information. And is currently awaiting their response.** To be continued. He has been informally charged with the crime of, standing erect & fighting for his inalienable rights in the American Federal courts, where he emerged Victorious, but has been blocked from receiving financial compensation for damages & forced outside, by a move which borrowed the power from the widely accepted notion of the 3/5 clause of the Constitution, which laid the groundwork for the egregious transgressions which have been perpetrated against him, & his civil battles. Astonishingly, those very "inalienable rights" which he fought so arduously for, were undermined after justice was delayed & an executive order was carried out to employ a system against him which simply ignores them. The system is empowered by not recognizing him as fully human. And those wielding it, **boast of their ability to lock him outside of the United States Constitution by a system of Neutralization without any fear of reprisal.**

***[The shameful & overt display of despotism which has come in the form of retaliation in response to the plaintiff's pursuit of justice is reprehensible juvenile & evil. Unresolved it remains a "Black eye" to those decision makers & enforcers whose sworn responsibility it is to uphold the United States Constitution by the just powers derived from the consent of the governed. If injustice anywhere, is a threat to justice everywhere, how then can it seem suitable for a nation whose open proclamation is "... and justice for all," to willfully cling to denying justice for one? ]*** a 2013 protected work © by SJR

## **MANDALAY BAY STILL WONT PAY**

### **I'D CRY A RIVER**

EXCEPT FOR AS A CHILD. I CAN'T REMEMBER CRYING FOR MYSELF,  
NOW THAT I'M A MAN, I STILL DON'T. BUT FOR A FRIEND,  
FOR A LOVED ONE. FOR MY RELIGIOUS BELIEFS, I'D CRY A RIVER OF TEARS.  
DURING MY PURSUIT FOR JUSTICE, I HEARD SOMEONE SAY, POOR HIM,  
LOOK WHAT THEY'RE DOING TO HIM. I REMEMBER THINKING,  
IF I HAD THE CHANCE TO ANSWER THEM, I'D SAY.  
DON'T CRY FOR ME.  
BUT IF YOU MUST,  
CRY FOR YOUR FRIENDS & FOR YOUR FAMILIES.  
DON'T CRY FOR ME,  
BUT IF YOU MUST CRY.  
THEN CRY FOR JUSTICE, & LIBERTY.  
NO, DON'T CRY FOR ME.  
CRY OUT FOR FREEDOM & EQUALITY.  
CRY OUT FOR FREEDOM, & NOT ENSLAVEMENT.  
FOR FAITH, & NOT FEAR.  
FOR LIFE, & NOT DEATH.  
FOR LOVE, & NOT HATE.  
AND WHEN YOU CRY.  
CRY OUT THAT GOD, WILL BE MERCIFUL & FORGIVE.  
AND THAT HE WILL BE SWIFT WITH HIS SWORD OF JUSTICE.  
FOR IF HE LEAVES US, HEAVEN HELP US ALL.  
SO, I'LL CRY THROUGH REBELLION.  
I'LL CRY THROUGH DEFIANCE.  
PUSH ME DOWN, & I'LL, STAND UP AGAIN.  
I REFUSE TO LIE DOWN.  
I REFUSE TO STAY DOWN.  
YOU CAN'T STOP ME, FROM BEING A MAN.  
SO, DO YOUR DARNED BEST TO FRAME ME.  
STILL, YOU WON'T TAME ME.  
THOUGH YOU TRY TO TAKE AWAY ALL THAT IS MINE.  
STILL, I'LL KEEP ON PURSUING.  
THOUGH THE WHOLE WORLD IS VIEWING.  
IS THERE NO END, TO THIS, EVIL DESIGN?

**written by Sir Jeffrey Robinson, a protected work © 2000**
