

9-20-12 WASSARCA

SARVAC is looking into the possibilities or ramifications of searching for armed persons, should have answers by years end.

Grant process is being looked at. Trying to gear issued grants toward innovative training not just toys

WASSARC is looking at getting an overhead search management team for big events, large scale searches, a group of coordinators from around the state to help if need be.

January training...do we need any? If you see a need for training before next years sar conference...i. E. Search management basic, advanced

.AFRCC can look for cell phones. Best resource for cell phone ping from AFRCC. They have agreement with all cell carriers and can get much better cell ping info. If you need cell phone data and get it from AFRCC and not dispatch because if dispatch starts the ping, it locks AFRCC out.

Possibly a class to come about using cell phone ping with afrcc  
2013 SAR CON? In may 2 weekends prior to memorial day will be mothersday weekend. Kittitas county. coming right along.

2014 at Pierce county having a hard time finding a location. if SAR wants a particular class at sarcon....let me know to let committee know for suggested class

Core competency..see handout.

Project lifesaver only finding device going. EMfinders no longer lots of agencies don't like project lifesaver

Cert community emerg response team. training for our sar guys...wide area search course put on by texas am training. Its free. Contact chris long

Possible flood disaster training for our guys. Lots of training is fema courses, online stuff.

Darren is new president...tom peterson is vp

Next meeting, nov. 15th in ellensburg probably
