THE CAPITAL SERIES SHOWER ENCLOSURE

features a contemporary, clean design that makes an instant and lasting impression. This popular enclosure is ideal for large, multi-unit projects and is designed to make installation a quick and easy process.

The Capital Series offers a number of features that make it the enclosure of choice for a wide range of bathroom designs. These enclosures include an overhead rolling system that is engineered for smooth operation over many years, and a contemporary semi-frameless design incorporates sturdy 3/8" clear glass.

Cardinal 10 Surface Protection provides an extra level of durability and is included as a standard feature with the Capital Series. This added treatment effectively repels both water and oil-based substances, saving cost on maintenance and cleaning.

CARDINAL™

Shower Enclosures • Commercial Glazing Systems • Artisan Glass
