

# *Crystal Hewitt Benefit Open Cruise In*

Crystal is a 31 year old single mother of 2 and she has been diagnosed with Stage 4 Cancer with a tumor around her heart. She was born with only one kidney so chemotherapy is not an option and it is in-operable. The doctor and hospital bills have become overwhelming. She is a big advocate for early detection with cancer so if you feel something is wrong, go get it checked out..Crystal works at Evening Shade, Inc. and Steve Glowe, the owner, says, "She is the backbone of this company. She keeps us all in line and keeps us focused." She is a loved mother, friend, co-worker, and family member. Most of us in the "custom car community" know her so lets all get together and show her some love. We will be taking donations at the cruise in and we will be having a 50/50 raffle as well...so come with deep pockets.

**MUSIC  
WILL BE  
PROVIDED**
