----------------------	--------------

- Instructor was engaging with course material. Laid out objectives clearly. & I appreciated his use of humor in instruction throughout the course.
- Content was clearly presented and organized.
- The variety of subject matter and thoughtful discussions further into the historical context of each subject.
- - Exploring a more detailed background of music theorists and concepts (not just composers) helped me see a much deeper/broader scope of the development of music and music history. - Class pacing and diversity of activities kept the class engaging and well rounded.

3 - What two or three suggestions would you make to improve this course in the future?	
Response Rate	3/6 (50%)
<ul style="list-style-type: none">• Don't deviate much from the topic, although it can be very interesting! Allow students more time to assert their understanding before jumping in.• More differentiation between quizzes and assignments.• - Keep this as a summer course option. It is set at a great time of year, and it allows students to handle the theory review in a condensed time period. - Tie in practical music theory applications into our current jobs or future careers.
