

The word is out--*competitive handgun shooting is fun!* The **Aberdeen Handgunners' Club** has been active in the Aberdeen area for over 30 years and would like to invite you to come join in the excitement of competitive handgun shooting.

To become involved in handgun shooting, you will need eye and ear protection, a holster and enough speed loaders or magazines for forty rounds. The gun used for competitive shooting can either be a double action revolver, a semi-automatic pistol, or a 22-rimfire rifle.

The matches are scored on speed and accuracy. All courses of fire are unique and not known to the competitor until the day of the match. Keep in mind that you are only scored with guns in your class. Revolvers with open sights compete together. Revolvers with optics and/or compensators compete together. The same is true of semi-auto pistols. The semi-auto class also has three divisions that are limited to ten rounds in the magazines. There is also a .22 handgun class and a tactical .22 rifle class.

When you come to a match these safety procedures will be followed; 1) All firearms will be unloaded and in a case or holster, 2) the range is always cold, meaning that the only loaded gun on the range is the person competing, 3) firearms are handled only at the safe tables or on the firing line under the direction of the Range Officer, 4) no ammunition or magazines will be handled at the safe tables, 5) the Range Officer will ask the competitor to load and make ready, 6) when the competitor is ready, an audible signal from the electronic timer will signal the start, 7) when the competitor has fired the last shot he/she will be asked to unload the gun, show the Range Officer that the gun is unloaded, dry fire the gun down range, and holster.

The basis of our sport is to have fun. Your presence and conduct is far more important than your shooting ability. If you're not doing well from the start, don't give up. You will improve with practice and our club members will do everything to help you along. We all went through the same learning process when we started. More important is the camaraderie and friendships that last a lifetime. The three principles of shooting at our club are to:

- Always be safe
- Always try to do well
- Always have fun

Membership and Shooting Fee Information

The Aberdeen Handgunners and The Sportsman's Club of Brown County (SCBC) are two separate organizations. The shooting range is operated under the direction of the Sportsman's Club of Brown County (SCBC).

Shooting fees for the Aberdeen Handgunners' Club
USPSA MATCH FEES:

\$15.00 per match for members
\$25.00 per match for non-members
Membership fees are \$50.00 per year
Youth shoot free with an adult present
We will have package pricing for the year.
Contact us for further information.

To qualify for season trophies, a class of gun must be shot in four matches, if shot in more than four matches, the best four scores will be used for trophy placement.

Aberdeen Handgunners is a USPSA affiliated club. We shoot in one bay with usually one course of fire. Each competitor can shoot the course with up to five different classes of guns. We also have separate classes for youth and women.
