## Ed Smith

The year, 1974. From out of space, comes a runaway planet, hurtling between the Earth and the moon, unleashing cartoon destruction. Man's civilization is cast in ruin. 42 years later, Earth is reborn. A strange new world rises from the old. A world of silliness, impossible science, and jokes that just make you wonder why he wasn't beaten more as a child. But that one man uses his pencils and brush pens to fight for justice. With his companions, most of which are imaginary and made up, the ones that are real, decline to admit that they know him. He pits his lack strength, his Courage the Cowardly Dog bravery, and his fabulous Sunsword (well, it's not really a Sunsword, see it's a pen he holds up to the window in the morning and talks to, in order to slay that paper in front of him and make cartoons that look good) against the forces of evil and people who stop him from getting Tacos. He is Ed Smith—Cartoonist at Large!!
