

***JIHAD VIOLENCE BY ANY OTHER NAME IS  
STILL JIHAD VIOLENCE***

[May 5, 2017 ~TPATH~](#) Words matter. Language is the foundation for community living - it is the means by which individuals make themselves understood within groups and why translators are necessary to make themselves understood outside the group. One of the most powerful weapons of war is the deliberate confusion of the meaning of

words within a group. In **Islam** there is a name for this tactic - *taqiyya* - it means lying in the service of Islam. Radical socialist **Saul Alinsky** introduced the concept to America in his 1971 book *Rules for Radicals* when he instructed his students to cut their hair, put on a suit, and blend in so that no one would suspect they were trying to overthrow the government of American capitalism and impose socialism.

There is no equivalent word in the English language for this deliberate deception so I have coined the new word *Alinskiyya*. **Barack Obama**, a student of Alinsky, practiced *Alinskiyya* when he disguised his radical socialist agenda and promised "*hope and change*" to an unsuspecting American public. Obama practiced *Alinskiyya* when he deliberately rebranded terrorism as workplace violence and scrubbed all mention of **Islamic Jihad** from national security manuals and training. Radical Islamic terrorism is a military expression of Islam's goal of world dominion and changing the meaning of words (*taqiyya*) is stealth jihad. The word "*peace*" for an Islamist means when the whole world is Muslim and when sharia law governs the world. Words matter. Redefining jihad terrorism as mental illness is a powerful political tactic used to deliberately confuse the public and engage their humanitarian selves to view the terrorist as a victim who needs understanding and refuge instead of recognizing the existential threat he poses. WHY?

Why would civilized Western societies deliberately rebrand terrorism as mental illness and become apologists for the barbarity of terrorists and sharia law? To make sense of the nonsensical it is necessary to examine the motives of the participants. Left-wing liberal leaders across the world in Germany, Sweden, England, Canada, Australia, and the Democratic Party in the US believe in internationalism and **one-world government**. Their political platforms reject national sovereignty and seek to destroy Western capitalist infrastructure and establish socialism in its place. **President Donald Trump** is an unapologetic America-first nationalist who embraces capitalism, rejects socialism, and fully intends to strengthen American sovereignty against one-world government.

The consortium of left-wing liberal politicians here and abroad require the social chaos and instability created by *anarchists and terrorists* to dupe the unsuspecting public into surrendering their freedoms in exchange for promised government "*safety*." Once the government imposes martial law to quell the chaos it is a very short step to internationalizing the police force and imposing one-world government.

Here is the problem. The anarchists including **Soros'** paid political protesters believe they will realize their dream of one-world government, social justice, and everyone singing *kumbaya*. The Islamists believe they will realize their dream of one-world caliphate ruled by religious sharia law. What neither group realizes is that they are the useful idiots for the globalist elite who are manipulating both groups so that the elite can impose their own dystopian one-world government.

**Lord Bertrand Russell** wrote a book titled *The Impact of Science on Society* in 1952 which unapologetically describes in chilling detail the intention of the few globalist elites in England and America including the **Rothschilds** and the **Rockefeller's** to impose one-world government as the answer to the Malthusian problem of the earth's resources being unable to sustain population growth. There is no national sovereignty, no middle class, no upward mobility, and no individual freedoms. The globalist elites envision a binary socio-political system of masters and slaves where they are the ruling elite served by an enslaved population - everyone else is eliminated. "World population needs to be decreased by 50%" – **Henry Kissinger**.

Bertrand Russell's book *The Impact of Science on Society* is a shockingly immoral supremacist view of the world that fully intends to use science and technology to eliminate the "useless eaters." Henry Kissinger pointed out "The economic system has become global, while the political structure of the world remains based on the nation-state. Economic globalization, in its essence, ignores national frontiers. Foreign policy affirms them, even as it seeks to reconcile conflicting national aims or ideals of world order." Kissinger stated, "**The New World Order** cannot happen without U.S. participation, as we are the most significant single component. Yes, there will be a New World Order, and it will force the United States to change its perceptions." In 1991 at the **Bilderberg Conference** Kissinger said, "Today, America would be outraged if U.N. troops entered Los Angeles to restore order. Tomorrow they will be grateful! This is especially true if they were told that there were an outside threat from beyond, whether real or promulgated, that threatened our very existence. It is then that all peoples of the world will plead to deliver them from this evil. The one thing every man fears is the unknown. When presented with this scenario, individual rights will be willingly relinquished for the guarantee of their well-being granted to them by the World Government".

– Henry Kissinger, Bilderberger Conference, Evians, France, 1991

The social chaos that Henry Kissinger describes is fomented by the globalist elite and implemented by gullible left-wing liberal globalist leaders who are too arrogant to realize they are just **useful idiots**. In case anyone doubts the reality of the elitist one-world government intention just read David Rockefeller's own words on the New World Order (NWO) in his book **Memoirs** where he admits he is part of a secret cabal working to destroy the United States and create a new world order. These are not unhinged conspiracy theories - they are the sinister plans of a determined few to enslave and rule the world.

*Memoirs, pg 405: "Some even believe we [Rockefeller family] are part of a secret cabal working against the best interests of the United States, characterizing my family and me as 'internationalists' and of conspiring with others around the world to build a more integrated global political and economic structure - One World, if you will. If that's the charge, I stand guilty, and I am proud of it. We are grateful to **The***

*Washington Post, The New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost forty years. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. But, the work is now much more sophisticated and prepared to march towards a World Government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries."*

Personally, I do not want Bertrand Russell, Henry Kissinger, David Rockefeller, or their useful idiot puppets Barack Obama, Hillary Clinton, Chuck Schumer, Nancy Pelosi, Angela Merkel, etc., etc., etc., determining the course of my life.
