1. Please describe your experience serving on a City Commission and/or the City Council or with another community organization.

*I was elected to City Council in November 2016 (highest vote getter), serve on the Alameda County Transportation Commission as an alternate, and a few other commissions for the region.*

*I also served on the Planning Commission for 4 years prior to being elected. During the term on the commission I brought forward my technical expertise in the Transportation industry and being an Engineer that used to work for the Planning Department at Alameda County Public Works.*

2. What compelled you to run for public office?

*When I ran for City Council in 2016 the community had requested me to become their voice which was affirmed through the Ballot, again this year they have done the similar request. Being in Public Office is for me being part of a solution and making a difference positively for the constituents and the region.*

3. Do you want the Bay East Association of REALTORS® to endorse and support your campaign and if you do, why?

*I would definitely be interested in receiving an endorsement from Bay East, in addition, as a licensed Realtor registered with Bay East it would be an honor to represent Realtors in the tri-valley as a Mayor.*

*Support financially for the campaign is not necessary and would be evaluated prior to acceptance for adherence to campaign commitment to the constituent base.*
