

Trash Recycling Update

Republic Waste has altered the recycling services for Town Park CIA and has suspended heavy trash pick-up indefinitely. This is due to COVID-19 that has caused a significant shortage in the operations staff therefore they had to implement these reductions. Only bagged yard debris (leaves, clippings, stems, etc.) and bundled tree limbs that must be less than 2" in diameter and cut to 4 foot lengths and tied in small bundles not to exceed 40 lbs., is the only heavy trash that will be picked-up currently.

Those homeowners who had set out heavy trash scheduled for April 6th, need to store the heavy debris out of sight until Republic Waste resumes normal heavy trash pick-up.
