Additional Shipping Information:

Please note that there are additional fees for lift gates, residential and inside deliveries.

Here are some ways additional freight fees may be avoided:

* For customers without docks, if someone can be there @ the time of delivery and assist with unloading (driver will hand product down to you), lift gate and inside delivery fees will be waived.

* If a lift gate is needed, the driver can drop the shipment on the sidewalk or at the end of the drive and this will avoid an inside delivery fee.

Please note that if shipment is taken to any area other than the sidewalk or end of drive, it will be considered an inside delivery and additional fees will apply.
