## BEAUTY TRENDS

By Robert Moran Doctor of Glam

**HOT** for summer is short and medium lengths with an array of pixie crops, lobes and bobs and... no more long hair tangles, knots, split ends, dry patches and damaged strands. Long hair has its place, but flat, limp, damaged and lack of volume is running rampant everywhere we look. Bobs make hair look fuller, have the length to be tousled, but hold curls in place all day and all night.

### MEDIUM

Medium styles are layered, curly, straight, shoulder length waves, or one-length are on the **HOT** list. But a haircut is not your only option for a medium-length mane. Turn medium length hair into an amazing hair masterpiece by incorporating braids, fish plait, and ponytail, highlights and accessories.

**At Every Length The BOB Is One Of The HOT Hair Cuts For 2015.**

### \*\*\* Dr Glams Faux Bob

Want a short, sexy bob but don't want to chop off your long locks? Achieve this simple, sultry look by pinning long/shoulder-length hair from underneath. Loop hair up and under and secure with bobby pins. Don't worry if the back is not 100% even. This look is casual messy.

Low maintenance, gorgeous long side swept bangs are a flattering style that suits everyone!
