

# Parent testimonials about Heaven Sent Nursery School

**\*\*\*I just wanted to send you a quick note to let you know how happy we are with Heaven Sent. Charlotte wakes up every day asking if she can go to school and she adores her teachers and all the friends she has made. We have noticed a big difference in Charlotte since starting at Heaven Sent. Not only has she been learning SO much, but her behavior at home has been drastically better. She's a good kid, don't get me wrong, but for a few weeks we were wondering why she was misbehaving for no reason at all. Well, lately she's been using her words to express how she's feeling and asking us for help when needed or telling us when something frustrates her. We really think it's because of school and all that she is being taught there...and we can't thank you all enough. It's not easy leaving your "baby" under the care of others, and while I miss her tremendously while she's at school, I know she's well taken care of, loved and most importantly happy. So thank you to you and everyone at Heaven Sent. We are so happy we made the switch this school year.**

**\*\*\*It all started with my daughter Jillian 20 years ago - she had a fantastic, loving teacher, Mrs. Ravo. My oldest daughter, Samantha benefited from Mrs. Ravo's, direction and grace, during her retirement year, with her own firstborn, Michael. Now it's Olivia's turn. Heaven Sent is outstanding. Their message to the children and their parents is unwavering, genuine, filled with love and kindness every step of the way. I am so very happy my daughters and now grandchildren were able to experience the teachings and leadership of this wonderful school. Thank you, with all I have.**

**\*\*\*We loved Heaven Sent for our daughter 7 years ago, and we love it again for our son now! It is such a special place -- child-centered, family-centered, developmentally appropriate for the littlest of learners, and fun!**

**\*\*\*My daughter loves her school! Great teachers and atmosphere for the kids! My daughter had a wonderful, magical and supportive first year of preschool. The teachers are incredibly talented and my daughter had a great time. Highly recommended.**
