CANON FINANCIAL SERVICES, INC.

# Canon Xephilio OCT-A1 Optical Coherence Tomography

## No Payments for 6 Months\*

VEW Booth MS 9048

\* When leased through Canon Financial Services, Inc.

\* Valid on 36, 48 or 60 month terms through October 31, 2019.

## Optical Coherence Tomography

Automated acquisition makes the OCT-A1 extremely easy to use and very easy to delegate!

- Fast and easy OCT high quality image using fully automated "3" click operation
- Integrated SLO provides live image of retina with real-time auto retinal tracking
- High scan speed 70,000 A-scans/sec. with up to 13mm wide scan
- Axial optical resolution approximately 3 microns
- Minimum small pupil 3.0mm
- Programmable exam presets to enable multiple scan modes in a single exam
- Multiple scan modes – *Macula, Glaucoma, Disc and more*
- Retina and Tomogram displays
- 10 Layer segmentation and 3D layer display
- Same scan position for follow up exams with identical scan parameters
- Mouse controlled operation (*No Joystick*)
- DICOM interoperability
- RX Capture for OCT-A1 software database management
- Computer and Monitor included

- Leasing is provided by Canon Financial Services, Inc., ("CFS"), a wholly owned subsidiary of Canon U.S.A., Inc.
- All lease transactions are subject to credit approval and acceptance of all required lease documentation by CFS.
