Families of Saltillo, Coahuila, Mexico

Volume Fourteen

Volume fourteen contains marriage information found on film 605096 (matrimonios 1788-1823). This volume, in a series, continues with 500 records starting on September 1815 and ending on July 1819 on images 447-534. The plan now is to create a fifteen volumes of 500 marriage records each. Basic information from the marriage records is presented along with other information gathered in an attempt to present two generations descendant reports. Not all marriages result in descendants. Most of non-marriage record information presented was gathered using the FamilySearch.org database index.

This project requires more than just skill in reading handwriting. It demands some skill in paleography (the study of ancient writings). I learn as I go, without a formal education in genealogy or paleography. My books are my interpretation of the records, not what I see in the records but how I interpret them. The marriage record information found on image 462-6 has Jose Lino Nuncio Indio hijo lexo de Franco Nuncio y de Ma Igenes Rivera con Ma Andrea Solis Mestiza hija Lexa de Nicolas Solis y de Ma Manuela Bosque. My interpretation: indio Jose Lucio Nuncio son of indio Francisco Nuncio and morisca Maria Ines Rivera married Maria Andrea daughter of mestizo Jose Nicolas Solis and mestiza Maria Manuela Bosque. Some of that information came from the baptism records of the bride and groom. There may be more useful information found of the records than I am including in this volume for example from the marriage of Vitoriano Cardenas on image 455-4 we discover that he married his third cousin. Please take the time to view the online church record images.

I want you to find any and or all of these church marriage records. I recorded the image number followed by a dash and serial number for each record with the hope that you would be able to locate them with little effort. It should be easy if you have used the online images before. I like to think of it as riding a bike. Once you learn to do it, there is no problem. The problem is learning to do it.

10 Steps to finding the marriage of Vitoriano Cardenas

 - 10.) Above the image on the right is the word "**Image**" followed by a box with a 1 then "of 509". Replace the 1 with 455 and press enter. Simple as that!?.
- These steps might change at any time.
