

Why Choose Us:

- 3D modeling can show you what the finished project will look like, allowing for changes and modifications before the work even begins, saving you precious time and money
- Save time and money by going with a smaller and more agile company
- Pick any contractor that you want or DIY!
 - Recommendations and referrals available if needed
- Increase equity and add value to your home. Let 3Design Renovations help design professional and tasteful upgrades that make all the difference to prospective buyers

What We Do:

- 3Design Renovations provides walkthrough 3D computer models and/or JPEG images of the model
 - Tired of the outdated layout or look of a room, fast forward to the future and take a walk through your project before you even start!
 - 3D modeling can inexpensively show you what it would look like to finally make those desired changes
- Interior architectural design
 - Unfinished basement, 3Design Renovations can help design a layout to best fit client needs and local building requirements
 - Kitchens and Baths to the smallest detail
 - Everything from furniture layout and colors to removing walls or changing cabinetry
- Small scale drafting (Before starting construction, you may need professional plans)
 - Drawings for HOA approval
 - Blueprints for permitting

About the Owner:

- Stephanie has a BFA degree in Sustainable Interior Design, with eight years experience in the design/construction field, as well as 3D modeling and drafting
- Her work, 3D models and blueprints, were featured on the DIY Network show *Mega Decks*, both seasons 1 and 2
