**Finalist Selection**

Final competitors shall be chosen from the pre-judging. Only those competitors who are in the top 5 in each age and height class will be allowed to go on to the final judging.

**JUDGING PROCEDURE**

The actual judging shall be accomplished through the following procedure:

**1. Group Facings**

All contestants in the class are brought before the judges. . Standing in a line in front of the judging table, they execute a series of simultaneous quarter turns, allowing the judges to view and compare them from all angles.

**2. Individual Posing**

The contestants come out singly by class and perform their individual routines. These routines must include, but need not be limited to at least one front, one back, one side and one twisting pose. This session will not exceed 60 seconds per competitor.

**3. Comparison Posing**

All competitors are called back (by class) for detailed comparison. All contestants shall be compared. Standard poses shall be used for this phase, and the judges may shift the positions of the contestants in order to facilitate such comparisons.

At the completion of the prejudging comparison posing round, the judges will forward their choices for final competitors to the Head Judge. Each finalist will be asked to step forward to the front of the stage. These competitors will be the finalists and will be instructed to return at a pre-set time for the finals competition.

**FINALS**

**Judging Procedure**

The same three-step process as used in the prejudging will be used in the finals. At the completion of the finals comparison posing round, the judges will cast their ballots and they will be forwarded to the Head Judge.
