Personal firearms and handgun training is provided. There is a methodology to awareness of your surroundings, identifying a threat and being able to draw your firearm in a manner that never lets you remove your line of sight from your target.

This is better illustrated and utilized in a one on one situation where personal training is invaluable.

Not only arriving and shooting at an indoor range make a person proficient but the factors involved in real life harmful- life threatening situation.

The training is 8 hours please contact Lloyd Goodnow for pricing.
