Correction

< Ralph Carland 4-9-1987

(Unconfirmed at this me!)

*Question & Controversy over Ralph's listing as deceased. I got note & did more checking & follow ups. Finally got a

call back from number we were earlier checking. A man by same name & mother the same as Ralphs would have been...says he not one in same and grad. from NJ?

So at this time we unable to prove Ralph's status or location, but Betty Breaux-Rhorer is pretty sure the date & info we have is for Ralph's father of the same name.

If anyone has any information to share we would love to hear from you! Other wise we will put him back on our Missing List & if you have any information that would be helpful!!! Please forward! It is not my intention to report anything half or untrue or try to manipulate any of the facts or information. Many attempts were made to document/report the correct information.

To Donate: Include a note of honoree's name & information for survivor to get receipt or just donate outright .
