<p>Welcome & Introductions (10 minutes)</p>	<p>Youth Tri-lead Baltazar Torres On entry to the meeting, please put your name, agency/group affiliation if you have one, and if you are a family, youth or system partner. This will help with attendance gift card stipend for attendance. <i>Baltazar reviewed the meeting guidelines and led the group in an ice breaker. Members were encouraged to write their contact information in the chat. Meredith announced agenda change, Cari Whitney and Emily Mattos will be presenting information for 3 Rivers Therapy.</i></p>
<p>Meeting Minutes (5 minutes)</p>	<p>System Tri-lead Jill Mulhausen Review of meeting minutes from December 9, 2021 Motion made by: <u>Baltazar Torres</u> Seconded by: <u>Carolyn Cox</u> Did the vote carry? YES</p>
<p>3 Rivers Presentation (30 minutes)</p>	<p>Cari Whitney, Emily Mattos, 3 Rivers Therapy <i>Cari and Emily presented the various services that are available at 3 Rivers Therapy. 3 Rivers Therapy has 14 mental health counselors on staff and is located in Kennewick off Clearwater. 3 Rivers works with all ages, they offer family therapy, marriage counseling, therapy groups for youth, they have a Psychiatric Nurse Practitioner starting in February who can prescribe medications. 3 Rivers Therapy focuses on whole health wellness for the whole family. Cari states that she has been working to develop the WISE program and SUD program. They have just been awarded a contract for the SUD Recovery Navigator Program and have hired 8 peers to run that program. The program is peer based and peers will be able to meet the needs of the person in the moment without forced treatment. There will also be case management services available to address additional needs as well. They will be opening a 2nd building, a Crisis Center. At this time they have one WISE team, they can expand to 2 teams. They have been working to get into the</i></p>

They often meet with WISE members in the community and in their homes. 3 Rivers accepts private pay and all medicaid plans, they also have a sliding fee scale as well. They are not able to accept Medicare at this time. They do have WISE-like services available to those who do not have Medicaid. Cari discussed their group therapy which takes place after school and youth groups are formed based on age. They work on social interactions and skills. They accept both private pay and Medicaid eligible youth for group therapy. 3 Rivers is currently working on a Community Response Center that is being built. The center will be able to accept referrals 24 hours a day, and after regular business hours calls that are determined to need immediate response will be referred to Crisis. The specifics regarding how the Crisis Center will operate has not yet been determined, however, they are looking at having a peer available 9am to 6pm everyday and are potentially looking at offering some sort of peer respite services as well.</i></p>
<p>Question/Answer Session (10 minutes)</p>	<p>Baltazar Torres Youth Tri-Lead FYSPRT members</p> <p><i>Individuals were given the opportunity to ask specific questions. 3 Rivers Therapy attempts to get individuals into services for WISE within a 10 day window whenever possible. Convener will send out flyers to FYSPRT distribution list. There is no charge or co-pays for Transition Age Youth services. Commercial insurance is now covering peer services. For youth group therapy parents must transport the youth. The Community Response center will not be crisis center, however, it will work with Crisis and will be a place for individuals to be seen and get some immediate assistance with referrals to Crisis if needed.</i></p>
<p>FYSPRT project/education ideas/Agency needs (10 minutes)</p>	<p>Meredith Piehowski, Convener All members</p> <p><i>Jeanette expressed interest in learning how to get involved with the Recovery Coalition group that is meeting and discussing the use of the new tax dollars for behavioral health services, including the possibility of a center in the old Kennewick hospital building. Jeanette stated that it would be important for our group to be involved in this so that any plans include youth and family voice and choice. Several members provided some information about meetings and the contact person is Michelle Gerber, her information was included in the chat. Kelly McCullough reports she attends these meetings when she can and believes they are open to the public. Dan Aspiri suggested two possible meetings or committees that FYSPRT might want to participate in through Benton Franklin. One is the meeting that is being used to complete a needs assessment and new CHIP plan for the community, and the other is a group lead by Joyce Newsom who is with 211 regarding addressing the transportation needs of those in the community who are considered “special needs” who may be low income, may lack transportation to get to out of town medical appointments, etc.</i></p>
<p>Roundtable Discussion (15 minutes)</p>	<p>All members</p> <p>Meredith Piehowski - Reminded of Tri City Family Expo at the end of January, there are extra health and safety precautions that are being put in place</p>

Those youth and families who attend are being asked to complete the form and return it to meredithp@gcbh.org so it can be used to maintain correct contact information as well as to provide tracking for attendance gift cards.</i>
WISe data presentation next month (5 minutes)	Meredith Piehowski <i>Meredith discussed changes that are being made across some FYSPRTs regarding reviewing WISe data. There has been discussion of having WISe providers share more recent data, issues and concerns such as wait times and appointment availability in meetings in place of the semi-annual review of the WISe data that had been taking place. Meredith provided some suggestions regarding the type of data that would be useful for the FYSPRT to discuss. The main data the group was concerned about were wait times, the need for services, and how often those in WISe are being seen. Meredith will send out an email to the WISe providers to ask them to share some of this information with the FYSPRT. Carolyn Cox stated that SPARK attends WISe Collaborative meetings across the state, however, their group is not invited to the Greater Columbia region Collaborative. The group discussed concerns with this. Carolyn reports that other Collaboratives she attends provide excellent information regarding the WISe providers, services, wait times and data. Discussed the lack of transparency and difficulty with some agencies working with each other to provide services when there is a wait time. Discussed that Meredith has requested to join our Collaborative and has not gotten a response. It was agreed that this conversation should be continued and that follow-up is needed on attendance at these meetings. There were no WISe providers in this month's meeting. It was discussed that due to our large regional area and that all WISe providers are not able to attend these meetings, that attending the WISe Collaborative could potentially be very beneficial for the FYSPRT.</i>
Roundtable Discussion (20 minutes)	All members, include any updates/information on Mental Health Awareness Month in May Carolyn Cox, SPARK - <i>New JR classes will be starting up soon, they will be collaborating with DCYF and DOC. There will be 2 classes this summer to include classes directed towards the Bi-Pop community. There will also be spanish speaking classes available. SPARK will be a part of the Peer Pathways Conference and involved in Youth Peer Coaching</i> Cindy Adams, OMBUDS - <i>Cindy reports that current OMBUDS services will be discontinued on September 30th. There is an RFP out, there is no information on who will be taking over running that program.</i> Salomon, United Family Center - <i>United Family Center is looking for Master's Level Clinicians in their school based programs.</i>

<p>Question/Answer Session (10 minutes)</p>	<p>Baltazar Torres Youth Tri-Lead <i>FYSPRT members asked clarifying questions regarding services and wait times. Kendra states that they can complete an intake but getting into therapy will take a couple months at this time, however, they are training a group of people right now and then the wait time will go down. Kendra states that if someone would like to refer to the agency to do that as soon as they can as things may open up more quickly or if they have a cancellation they could get an appointment more quickly.</i></p>
<p>WISe data presentation/discussion (20 minutes)</p>	<p>Meredith, WISe providers, all members WISe Data Discussion</p> <ul style="list-style-type: none">- How many people are waiting to get into WISe in your region?- How many hours per month are WISe participants getting? Is that number being impacted by staff shortages and other COVID issues?- How many staffing shortages are agencies experiencing? <p><i>Meredith provided information regarding the WISe data for our region based on the agencies who reported information. Provided additional information regarding how FYSPRT members can review the BHAS data in detail online. FYSPRT members discussed the data. Staff shortages appeared to affect several agencies and affected their capacity and interest time. Most agencies were able to meet the required number of service hours per month. Comprehensive did not provide data for this data review. The group discussed the benefits of collecting this type of data. Some group member's report that they prefer to review WISe data in this way to see how agencies are doing, their needs and the wait times for getting consumer's into services. Discussed how to involve more WISe youth and families in the FYSPRT. Kaila at Lutheran has asked Convener to speak at the all staff meeting at Lutheran to talk about families joining the FYSPRT.</i></p>

There are two systems, civil and offender. Civil systems include At-Risk Youth, Truancy and Guardian Ad Litem. At-Risk Youth petitions can be accessed through a parent referral through DCYF. The offender programs include diversion, community supervision and secure detention. There has been a law change and warrants cannot be issues and youth cannot be put into detention for truancy. All individuals who are removed from the home due to abuse/neglect will get a guardian ad litem or an attorney based on age and circumstances. Statistics in the tri-cities indicate that about 80% of first offenders that go through the diversion program do not return to the program. This survey is five questions and we ask that you present it and complete it at your May or June FYSPRT meeting and then return it to me by Friday, July 1. We will be compiling the results into an Infographic to present at our July 25 Statewide Family Network Meeting to be held from 12noon-2pm virtually.</p> <p>I am including the five questions below, as well as a link to the actual survey on Survey Monkey. You can complete it in whatever format works best for you as a team. We can provide technical support in a number of ways, including bringing a training to your region or hosting a virtual training, parent/caregiver attendance support to leadership opportunities (conferences, trainings, etc), and other ways you may need support.</p> <p>Thank you in advance for taking the time to answer our questions. See below:</p> <ol style="list-style-type: none">1. How do you connect to your community?2. What success have you had in the past year?3. What activities, events, and/or trainings do you have coming up?4. What are your biggest barriers as a FYSPRT?5. What support(s) would you like/or need from the Statewide Family Network (SFN)?

What do we want to know?3. What are the most important behavioral health issues in our region?4. What specifically do we need for youth?5. What do we need for families?6. What do we need for our system providers?7. Any other thoughts, suggestions, discussion? <p><i>Convener briefly reviewed the purpose of the Needs Assessment and opened the meeting up for discussion. Discussed that using survey monkey as well as a QR code would be a good way to get more responses to the survey. Discussed ideas for questions and focus for the survey. Several areas of focus were as follows: highest priority needs for youth, mental health needs, social determinants of health, what is working, what is not working, what we need. The other idea that was discussed was to ask other FYSPRTs what needs assessment they utilize. This FYSPRT has done needs assessments in the past with Youth Move. Convener will contact other conveners to determine what Needs Assessment they have used in the past. Members discussed distribution of the survey and it was suggested the FYSPRT could utilize schools, other community organizations, and group therapy groups to target youth and families, and that using a trusted community member or group leader would provide more responses for the survey.</i></p>
<p>Roundtable Discussion (20 minutes)</p>	<p>All members</p> <p>Meredith – Asked members to refer other organizations and groups to the FYSPRT so they can present information and new programs to the FYSPRT. 5K event in September that is sponsored by the Recovery Coalition, go to the website www.509recovery.com, 988 will be active this Saturday, be aware of this change and call will be answered by a national line and then transferred to Protocol, then to local Crisis Center if needed.</p> <p>Peggy – Call centers are up and running at 95% capacity right now. The 3 Crisis Centers in WA State have been working hard to get ready for this launch. Will be working with mobile crisis responders and there are plans to have a local crisis center open possibly in January as a physical place people can go when in crisis. The difference between 988 and 911 right now is that 911 calls can be tracked by location, 988 calls cannot be tracked by location at this time.</p> <p>Baltazar – TCCH gave out lock boxes, encouraged everyone to hand out ammo boxes and medication lock bags to get them out into the community</p> <p>Cindy – Changes coming to the Ombuds on October 1st, there will be a state Ombuds and they will be doing grievances for medical along with behavioral health, encouraged those concerned to contact their legislator, as the Ombuds were not given the full funding that was requested. <p>WISe Data Review and Discussion</p>	<p>Meredith Piehowski, Convener WISe Providers <i>Meredith review the data from WISe providers that were submitted prior to the meeting. There were 3 WISe providers that responded to the request for data, 3 Rivers Therapy, QBH and Lutheran. That information was reviewed with the group. Group did discuss reaching out to the remaining providers in the region as not all WISe providers were able to submit data. Convener will work to give providers more time to get data for the FYSPRT. Discussed that at times there is not updated information available regarding which WISe providers have openings, as members have heard in meetings that there are waitlists. Suggested that contacting multiple providers in the event that there were openings. Group discussed that Molina is not contracted with the United Family Center or 3 Rivers Therapy and that does impact individuals that are being served. Individuals can change their MCO however, that is a process and they need to consider the other providers that the use (medical, dental, etc) and if they change from Molina how this will impact any other services they receive.</i></p>

<p>Presentation on the Recovery Navigator Program, Recovery Café and Peer Respite Center</p>	<p>John Penney, 3 Rivers Therapy</p> <p><i>John reviewed the Recovery Navigator Program, which has been up and running for some time now. John states that to get connected with the program an individual would need to contact their primary number and someone will talk to the person and then dispatch someone to the person if needed. The goal is to get someone out to the individual seeking assistance within 30 minutes, which so far has not been an issue. There are 2 responders for each county. The goal for these individuals going out is to meet their needs so they do not have to go to the ER or become involved in other emergency services. Peer support staff for the Navigator program is not meant to take the place of other services the individual is involved in, rather it is meant to complement and work with the individual and address any needs or gaps that might exist with current services such as assisting with financial and transportation issues.</i></p> <p><i>John also discussed the Recovery Café that is a project that is in development at this time. John states that the recovery café will run a little differently than the other cafés in the state in that they will have fewer barriers to get in and use the facilities. The Café, which will be named Rise and Grind, will be located in Kennewick by the old KGH building and will provide a variety of services and activities. Both the general public and those who are seeking services or a supportive sober environment will be able to access the café. There will be Recovery Navigator staff at the café as well as case managers who can assist individuals as needed. They are also hoping to have breakfast food and coffee that will be free of charge or donation. The café will be a place that promotes harm reduction, gives people an outlet and a sense of community. There will be a peer counselor available to talk if needed. Individuals do not need to be sober for a period of time before going to the program, however, if a person is intoxicated the peer support staff will work to assist the person with resources or other means of assistance. The building is currently being renovated and they hope to open the doors in November. 3 Rivers is also hoping to work with agencies in the community to be a part of the café by having days/times where other agencies can come in and provide services to individuals or talk with members about services they provide.</i></p> <p><i>John also discussed the Peer Respite Center that they are hoping to open next July. This will be a 5 bed facility and will be the first Peer Respite facility to open in WA. The facility will be staffed with peers. The center will be for individuals who need to socially detox safely, as well as if they are experiencing emotional distress but not a higher level of care. There will be no cost to individuals who use the facility and they will be able to remain at the facility for 5-7 days. At this time, they are still working out all the details about the facility and how it will operate.</i></p> <p><i>John answered questions regarding the program and facilities.</i></p>

<p>PAVE Presentation</p>	<p>Jerri Clark, PAVE <i>Jerri provided background on student rights in school. Discussed the various laws regarding education mandates that affect a students’ rights to a free and equal education. Jerri reviewed several important laws that have been passed federal and by the state regarding access to education. There are also laws that dictate that suspicion of a concern gives the child a right to an evaluation. Jerri discussed timelines and the IEP process, including the determination of a disability, does it impact the child’s education and if so they can develop Specially Designed Instruction for the child. Discussed FAPE (Free, Appropriate, Public, Education) and that the IEP should be developing goals for the youth that are measurable, tracked and meaningful. Discussed HIB (Harassment, Intimidation, Bullying) and that resource shortages should not be a reason why the youth is not getting services. The district is responsible for providing an education to all students, even if it means paying for other programming or education elsewhere. Jerri reviewed some of the materials available on the website and encouraged members to use the website as a resource and to contact their team if assistance is needed. Convener did send out the power point presentation to the group for future reference. Jerri answered members questions.</i></p>
