

Registered Agent Services

A registered agent (also referred to as resident agent, statutory representative or special state for service of process) is a state requirement to form a company. The appointed "agent" is responsible to receive and forward legal documents on your behalf. This ensures you don't have important documents handled inappropriately or missed all together.

The registered agent address is filed in each state a company has the authority to transact business in. This allows the public to access the agent address in the situation where a document needs to be served or forwarded. The documents will be recorded and forwarded to your company in a trackable and timely manner.

M&A partners with **Corporate Creations** to provide you this service. Corporate Creations will act as your Registered Agent. They will be responsible for receiving and forwarding legal and compliance documents on your behalf.

Who is Corporate Creations?

As M&A's strategic partner, Corporate Creations is a minority owned, leading provider of Registered Agent and compliance services nationwide for Fortune 1000 and private companies.

What is the Cost?

Corporate Creations Registered Agent fee is charged annually.

We have negotiated a special rate of \$100 per year.

All fees are payable directly to Corporate Creations to retain this legally required service.

VERY IMPORTANT!

**All States REQUIRE you to have a Registered Agent listed for your business.
If you do not have one, the state WILL revoke your company!**
