Matthew Hess

San Diego, CA

Dear Mr. Hess,

Thank you for contacting me about a bill proposal to prevent male circumcisions for non-medical reasons in the United States. I appreciate hearing from you.

As a mother and grandmother, I believe all parents should have the tools to make fully informed decisions regarding their child's health needs. I appreciate your advocacy on this issue and for bringing continued public attention to it. However, taking the step of restricting the practice remains far ahead of public consensus on this issue. The procedure is a matter probably left best to parents and their doctors.

Again, thank you for taking the time to share your perspective on this issue. As your representative, I both need and value your input and ideas.

With ward regards,

SUSAN A. DAVIS
Member of Congress
