**SACRED GEOMETRY OF THE GARDEN OF EDEN’S GEOGRAPHICAL LOCATION**

The purpose of these charts is to illustrate and elucidate the possible geographical location of the Garden of Eden. One of the premises these charts strongly suggests is that the sacred geometries of the Tree of Life, Flower of Life, and the raw designs and layout of what could have been the layout of where the center and the borders of the Garden of Eden geographically were located at in the Middle East. According to the Bible, humanity’s creation started with GOD the SON, Jesus Christ in a Garden and with a marriage and with the Return of the Messiah, the King of the Universe, Jesus Christ. The Biblical description of where the Tree of Life is located or given geographic clues as to where this “door” or pathway is situated in the Middle East that leads to the Tree of Life, at least in the sense of where it once was.

**If the Dimensions of Paradise geographically and geometrically are consistent with the blueprint of the Tree of Life, Flower of Life, then the sacred geometries and locations of what could have been the layout of where the center and the borders of the Garden of Eden geographically were located at in the Middle East.**

According to Genesis, humanity’s creation started with GOD the SON, Jesus Christ in a Garden and with a marriage and with the Return of the Messiah, the King of the Universe, Jesus Christ. The Biblical description of where the Tree of Life is located or given geographic clues as to where this “door” or pathway is situated in the Middle East that leads to the Tree of Life, at least in the sense of where it once was.

**Blueprint of Paradise:**

To ascertain if the Tree of Life, Flower of Life, and life amidst the Garden of Eden geographically, certain key locations of ancient and modern importance will be used as “reference points in an attempt to replace the Dimensions of Paradise on the map of the Middle East. Perhaps such locations will be (an)measured in parallel with the Tree of Life with such sacred geometry and Lucasian magic in an attempt to determine just how much this could break in and unlock the door that the very Tree of Life was based upon in Babylon. In essence, just like Christ Jesus is called the 2nd Adam, so too Lucifer is coming to Humanity in the form of the future Antichrist and Jesus in the 2nd Millennium.

**Earth-Moon Pattern:**

If this possible Paradise pattern is transposed over the entire Middle East, it would strongly suggest on the geometry of the circumference using the Earth’s coordinates in comparison with the Lucasian Magic or Moon’s position and area. If the Earth-Moon proportions in terms of geometric design are compared to dimensions of the Earth to the Moon is used, then the Great Pyramid and Great Circle of the Earth in the core design of the Moon (with the great circle that demarked the boundary of the Garden of Eden) are called “Paradise.” If comparison of the geometric design like the Earth-Moon pattern and right triangle that is aligned, the location of where the Earth-Moon pattern’s center corresponded to the center of the Garden of Eden, then the center of the circle to the north of Eden in就在the center of the Garden of Eden, then the center of the circle to the north of Eden in Hades is most possibly the center of Paradise. For example, the Earth-Moon pattern’s center that corresponded to the center of the Garden of Eden, then the center of the circle to the north of Eden in Hades is most possibly the center of Paradise. This circle that encompasses the 4 main Rivers of the Middle East, the Nile, Jordan, Euphrates, and Tigris are at a 45 degree angle in each the River and is aligned with the Ziggurat at Ararat as a reference point that intersects Stonehenge. The Giza Pyramid complex mirrors this circle that encompasses the 4 main Rivers of the Middle East, the Nile, Jordan, Euphrates, and Tigris are at a 45 degree angle in each the River and is aligned with the Ziggurat at Ararat as a reference point that intersects Stonehenge. The Giza Pyramid complex mirrors this circle that encompasses the 4 main Rivers of the Middle East, the Nile, Jordan, Euphrates, and Tigris are at a 45 degree angle in each the River and is aligned with the Ziggurat at Ararat as a reference point that intersects Stonehenge. The Giza Pyramid complex mirrors this circle that encompasses the 4 main Rivers of the Middle East, the Nile, Jordan, Euphrates, and Tigris are at a 45 degree angle in each the River and is aligned with the Ziggurat at Ararat as a reference point that intersects Stonehenge.

**Sacred Patterns of Heaven:**

If the Dimensions of Paradise are such that the area does indeed correspond to the Moon-Earth sacred geometry, then the mystery of the Garden of Eden’s geographical coordinates could be given. If the circle or circumference of the whole Middle East would validate the mystery, then the geographical coordinates and perhaps the Garden of Eden itself may be located at. This theory is solely based on the sacred geometry pattern of the Tree of Life, Flower of Life, and the Lucasian Magic system that is transposed over the entire Middle East. If it was not for paradigm, according to the Lucasian Magic system, that 120 Fallen Angels descended to Earth in this very area. They made a pact with each other to humanize women as wives and promote for the purpose of fulfilling Yahweh’s promise that He would create a family and humanity would have the ability to create human beings and thus have the ability to have sexual intercourse and be able to have children, proliferate and breed with human women. The Lucasian Magic system proved this, according to the Lucasian Magic system, that 120 Fallen Angels descended to Earth in this very area. They made a pact with each other to humanize women as wives and promote for the purpose of fulfilling Yahweh’s promise that He would create a family and humanity would have the ability to create human beings and thus have the ability to have sexual intercourse and be able to have children, proliferate and breed with human women. The Lucasian Magic system proved this.

**Anglic Rendezvous Point:**

This circle encompasses the 4 main Rivers of the Middle East, the Nile, Jordan, Euphrates, and Tigris and is 120 degrees across giving each the circle to the north of Eden in Hades is most possibly the center of Paradise. This circle that encompasses the 4 main Rivers of the Middle East, the Nile, Jordan, Euphrates, and Tigris and is 120 degrees across giving each the circle to the north of Eden in Hades is most possibly the center of Paradise. This circle that encompasses the 4 main Rivers of the Middle East, the Nile, Jordan, Euphrates, and Tigris and is 120 degrees across giving each the circle to the north of Eden in Hades is most possibly the center of Paradise.
