## **Proposal for a New World Wide Political Party**

### ***US ~ People Together***

America is not an infant anymore. The United States of America is more than two hundred years old, and now it truly needs to take its rightful place on the global stage ~ not just economically ~ nor just militarily ~ but also ideologically. That's where **US People Together** comes in. It is ideas that drive true leadership, and it is America's turn to now provide some fresh ideological leadership ~ not just domestically, but also internationally.

Let's look at a little backdrop.

The last major political movement that was fielded internationally was the communist ideology, with its practical birthplace sited in Russia. Communism quickly showed its fatal flaws. Those fatal flaws started to surface even as it was allowed to guide political thought in countries such as Russia, China, etc. Now, those countries are starting to wander away from pure communist thought, and into the globally prevailing economic thought of capitalism. That's not surprising, given the relative economic poverty of pure communism as it was originally practiced.

However ~ capitalism, an economic ideology fielded internationally prior to the fielding of the communist political ideology, is now entering its death throes. In its downfall, it is entangling the major American political parties ~ both the Democratic and the Republican. For more on the looming global gridlock in capitalism, look for *The Global Economy* at the Article tab at [www.heirling.com](http://www.heirling.com).

Currently, ISIS is attempting to field a new international political party ~ religious in orientation. Whether it takes or not remains to be seen. Additionally, various green parties

have been around for a while, but whether they develop international coherency and issue inclusiveness ~ that is still hanging in the balance.

Today's global economic gridlock is markedly pronounced. Tariff wars are currently being fought under the guise of currency wars. It's just a euphemism.

The Democratic Party, hopelessly mired in the ideology termed liberalism, is miserably trying to fit America into a new emerging international order as "one of many." That has led it down the path of economic and military weakness.

The Republican Party, hopelessly mired in the ideology termed conservatism, is desperately trying to bring back the good old days when America was "the one" and others were "the many." That is leading it down the path of aggressive tariff warfare ~ via Donald Trump. History has shown us the unsavory consequences of unbridled tariff wars.

The global economy is teetering on the brink of widespread collapse, with humanity teetering on the brink of existential warfare. Nobody seems to know what to do as we slide into the abyss of chaos.

That's when new thought is needed. It is new thought that shoves the threat of universal chaos aside with new social order ~ with renewed priorities and a renewed way of doing things. After all, humans are creatures of thought, and that's where human creativity starts ~ in thought. Today, it is America's turn to provide that new thought ~ both domestically and internationally ~ in the form of a new, international party offering fresh, useful and productive thinking.

Welcome to **US People Together** ~ a new political party mothered in America and embraced internationally. It is **US People Together** that will bring global humanity together, and stop the slide into the abyss.

Now, every political party has a platform, or stated ideology. What is the platform, or ideology, of **US People Together**?

**US People Together** has a very simple platform. Foremost is the need to structure a social order providing for the optimal survival and success of the whole, or group. Secondly,

within that structured order, individual personal freedom must be maximized without putting the existence of the group at needless risk

Outside of that, **US People Together** is not glued to disparate ideologies such as liberalism, conservatism, capitalism, socialism, etc. ~ but would rather use those different ideologies in varying situations as they may appropriately promote the two foundational mandates of **US People Together**. Again, the first mandate is the optimal survival and success of the group. And again, the second mandate is the maximization of personal, individual freedom within the group without putting the group at unacceptable risk. Everything else is conditional to that.

**US People Together** will provide a new political pole in America, and America will become the standard-bearer around which global humanity can unite. From the **US People Together** platform, new thought will emerge ~ and ~ that new thought will provide workable solutions to today's desperate problems.

Together ~ we can do it! Let's save our world! Join us!

Want to help get it going? US People Together? Save humanity & Earth?

[Send us an e-mail](#) and let us know how you'd like to help. We need both manpower and funding.

We appreciate anything you can do. Together ~ we can do this!

~ 'til we meet again ~
