Hiking Safety and Navigation for Kids!

Saturday, June 22 1:00pm-3:00pm
Visitor Center

Learn important hiking safety tips with Ranger Darren! Kids will be taught about hiking preparation, how to read a map and compass, geocaching, and what to do when lost in the woods. Then we'll take these skills outdoors for a mock search and rescue mission!

Great for children ages 6-12, and must be accompanied by an adult for the duration of the program. Space is limited and **registration is required** at the park office or by emailing borderland.park@state.ma.us. Please bring bug spray and wear hiking footwear. Rain cancels.
