## PREVENTIVE SERVICES EDUCATION SHEET

The promotion of healthy lifestyles and the early identification of potential health risks will benefit you and are important to us. In accordance with the current United States Preventive Services Task Force (USPSTF) guidelines, we have put together the following information for your guidance. Please read this preventive education sheet and feel free to discuss any of the topics with your physician. Only you can take appropriate actions to maintain your health and well being.

### I. LIFESTYLE CHANGES

#### Diet and Exercise

A healthy diet and regular exercise are the most effective ways to maintain good health, longevity and increase you quality of life. Choose a diet low in saturated fat, cholesterol, sugar and salt; eat plenty of vegetables, fruits, grains which provide vitamins, mineral and fibers, lean meats, pastas, etc. Twenty minutes of exercise, three times a week (i.e., walking, swimming, etc.) will keep your heart and bones healthy.

#### Substance Abuse

Use of tobacco is known to cause heart disease, strokes and lung cancer. Excessive alcohol intake is associated with many illnesses, including cancer, liver disease and impaired judgment (as in driving). Illicit drug use has many risks such as AIDS, hepatitis, heart problems, and mental and social disorders.

#### Sexual Behavior

Certain sexual practices (i.e., promiscuity, unprotected sex) can expose you to potentially fatal diseases such as AIDS, STDs, (sexually transmitted diseases) and other common infections.

#### Excessive Sun Exposure

Causes skin cancer. Always wear sunscreen when exposed to the sun. The higher the SPF (sun protection factor) you use, the higher the protection level against the ultraviolet rays.

#### Injury Prevention

Take advantage of the many safety products that are important in preventing serious injury. These include seat belts, bicycle helmets and other protective gear, safe work habits (lifting bending, etc.) smoke detectors, firearm safety, poison prevention, water safety practices for adults and children, CPR training for house hold members, etc.

#### Dental Health

Brush and floss regularly. See you dentist for routine visits every six months.

### II. ADVANCE DIRECTIVES

A document, that is also called a Living Will, which advises your family and physicians of your desires should you become incapacitated and unable to make decisions regarding your health care.

Have you prepared a living will? Yes \_\_\_\_\_ No \_\_\_\_\_

Please sign below and acknowledge that you have read and understand this information.
