Meeting Notice: The conference of Chinese Herbs medicine to Prevent the spread of COVID-19

1. Background: Since the spread of the coronavirus (COVID-19) around the world in early 2020, most countries have not found or established a good way to prevent the spread of the coronavirus. Only China has implemented effective measures to prevent the spread of the virus. In addition to the effective isolation organized by the Chinese government, Chinese Herbs Medicine has played a very important role. The various studies have found that the patented product "Jiang Guian antioxidant solid drink" of Zhejiang Jinhua An Ning Biotechnology Company has the best effect. In order to help Chinese in the United States and Americans prevent the spread of coronavirus, Zhengzhou University Alumni Association invited Ms. Zhao Li, the first inventor of the patent of Jiang Guian Antioxidant Solid Drink, to the United States as a special invited speaker. The title of the speech is Application and research of "**Jiang Gui An Antioxidant Solid Drink**" in preventing the spread of Covid-19 on the elderly"

* **Publish the patent number for application and evaluation: 202011155547.0, Post the serial number: 2020102602285380.**
