This advance directive ("AD") complies with the Virginia Healthcare Decisions Act. You are not required to use this form to create an AD. If you choose to use a different form, you should consult with an attorney or your health care provider to be sure the different form will be valid under Virginia law.

As long as it is signed and witnessed (on page 10), you may complete any or all of the parts of this AD that you want. Cross out or leave blank any parts that you do not want to use.

Your AD is turned on only when you are found to be unable to make informed decisions about your care. That finding must be made by (a) your attending physician and (b) a second physician or clinical psychologist after they personally examine you. Your AD is turned off when a physician examines you and finds that you are able to make informed decisions again. (There is an option to have your AD turned on by just one professional for the sole purpose of agent consent to admission to a mental health care facility. See Power 5 on page 2 for more details.)
B. What My Agent Can Do On My Behalf

My agent will have power…

1. To consent to or refuse consent to or withdraw consent to any type of health care, treatment, surgical procedure, diagnostic procedure, and medication. This may include use of a breathing machine, tube feeding, IV fluids, or CPR. It also includes higher than recommended doses of pain-relieving medication in order to relieve pain. This applies even if the medication carries the risk of addiction or of unintentionally hurrying my death.

2. To ask for, receive and review oral or written information about the health care decisions that need to be made. This includes medical and hospital records. My agent can also allow this information to be shared with providers as needed to carry out my advance directive wishes.

3. To hire and fire my health care providers.

4. To consent to my admission to, transfer to, or discharge from a hospital, hospice, nursing home, assisted living facility or other health care facility.

5. To consent to my admission to a mental health care facility when it is recommended by my health care providers. The admission can be for up to the maximum time permitted by current law. At the time I made this advance directive the maximum was ten (10) calendar days.

□ Power 5 option: My agent may exercise this power after one of the following professionals determines that I am not able to make an informed decision about admission: an attending physician, a psychiatrist or clinical psychologist, a psychiatric nurse practitioner, a clinical social worker, or a designee of the local community services board who is trained and certified to assess capacity.

6. To continue to act as my agent as long as I am unable to decide for myself, even if I state that I want to fire my agent.

7. To consent to my participation in any health care study if the study offers the chance of therapeutic benefit to me. The study must be approved by an institutional review board or research review committee according to applicable federal or state law.

8. To consent to my participation in any health care study that aims to increase scientific understanding of a condition that I may have or to promote human well-being, even though it offers no direct benefit to me. The study must be approved by an institutional review board or research review committee according to applicable federal or state law.

9. To make decisions about visitation when I am admitted to any health care facility. My agent must follow any directions on visitation I give on page 8 of this advance directive.

10. To take any lawful actions needed to carry out these decisions. This may include signing releases of liability to medical providers or other health care forms.

Additional details:
C. What My Agent Can Do Over My Objection

When I am not able to make informed decisions about my health care, I may say “no” to treatment that I actually need. If my agent and my physician believe I need that treatment, my agent has the power:

☐ _____ 1. To consent to my admission to a mental health care facility as permitted by law, even if I object.

   and/or

☐ _____ 2. To consent to other health care that is permitted by law, even if I object.

This authority includes all health care except for what I have written in the next sentence or elsewhere in this document.

My agent does not have the authority to consent to ____________________________________________ over my objection.

IMPORTANT: You need to have one of the following licensed professionals sign this page to make Part C legally binding: a physician, clinical psychologist, physician assistant, nurse practitioner, professional counselor, or clinical social worker. This professional checks that you understand the consequences of giving your agent the powers described on this page.

If you are not completing Part C, you do not need to have this page signed.

I am a licensed: ☐ physician, ☐ clinical psychologist, ☐ physician assistant, ☐ nurse practitioner, ☐ professional counselor, ☐ clinical social worker. I am familiar with the person who has made this advance directive for health care. I attest that this person is presently capable of making an informed decision and that this person understands the consequences of the special powers given to his/her agent by this Subsection C of this advance directive.

E. Mental Health Crisis Intervention

1. My Past Experience

a. Symptoms I might experience during a period of crisis:

b. Interventions that may help me:

In general, your agent cannot authorize and your physician cannot order use of the medications that you refuse here. There are some narrow exceptions permitted by law, such as emergencies.

You may leave the option open for your agent to consent to a refused medication if circumstances indicate the medication really is the most appropriate one under the circumstances.

You have the option of telling providers more information about your choices—it can help them to better follow your instructions.

You can add any other preferences about medication here, such as whether you prefer shots, pills, or liquid forms of medicines.

If you have, previously had, or are at risk of a mental health condition, Part E allows you to provide information about your condition and your preferences to help your agent and health care providers meet your needs in a mental health crisis.

Your health care providers must consider your preferences relating to the location and type of care but their ability to follow them may be limited by clinical, legal and administrative requirements.
c. Interventions or other factors that may make things worse:

2. Crisis units, inpatient facilities, and hospitals:

a. I prefer to be treated at the following facilities if 24-hour care is required:
