Survey Evaluation Results

Dear Marcos,

In the attachment you will find the evaluation results of the survey PO10101_23SP Issues in Politics.

The overall indicator is listed first. It consists of the following scales:

- General Info
- The Student
- The Course Overall

The overall indicator is followed by the individual average values of the scales mentioned above.

In the second part of the analysis the average values of all individual questions are listed, along with a comparison to the overall results for the entire school.

Sincerely,
College of Arts and Sciences

Marcos Scauso

2. *The Student*

2.4) Please provide any additional comments you would like to convey to the instructor about YOUR performance in this class.

- Good class.
- I feel it has been good, but I am personally not as involved in the discussions as I was towards the beginning of the semester and I feel that has impaired my understanding of some topics
- I submitted all of the class participation assignments, I performed well on all of the quizzes, I showed up to almost every class unless I had an actual excuse, and I completed all of the readings. I am happy with the way I performed.
- Less powerpoint lecture lessons.
- This class I think may have been a little too advanced for me or I just had a hard time with the topics. I usually understood everything by the time of the quizzes but in class sometimes I noticed myself not really following.

3. *The Professor*

3.8) Please provide any additional comments you would like to convey about the professor's teaching:

- He was very understanding
- I really appreciated the summaries at the end of each lecture. The material was all easy to understand and apply to real life situations.
- I really like how much I could tell Prof. Scauso cared about what he was teaching because that made me more interested in the class. Considering I had no exposure to politics classes prior to this, he did a good job teaching me what I needed, I just didn't get some of the concepts.
- i think the professor does his best to make hes teaching work for everyone even if that is a hard feat i felt he changed and adapted to the class better than most and seeing a professor evolve is what i like to see
- Loved your positivity and enthusiasm!
- Professor Scauso's class structure is in my opinion the best way to teach a class. He had power point slides, but was very knowledgeable on the topics, he encouraged class discussion, he did not move on until all questions were answered (which he would answer in full detail), he would acknowledge some of his biases, but was unbiased when actually teaching. Overall, in my four years at QU, he is one of the most intelligent, nice, and best professors I have had at Quinnipiac, and I am glad I took this course with him.
- Professor Scauso is amazing and makes the class actually enjoyable with such hard topics to talk about everyday in class
- Professor Scauso teaches with so much passion. It is evident how much he cares about what he teaches.
- While the lectures were very good, I felt like the slides helped the professor more than the students. If you got distracted for a few minutes it could be difficult to figure out what was going on, and the slides didn't help a lot because they were so vague. I typically like to be able to reference slides to get back on track if I get distracted, which tends to frequently happen to me.

4. *Class Materials*

4.3) Please provide any additional comments you would like to convey relevant to class materials:

- The powerpoints and readings were very relevant to what we were quizzed on.
- To be super honest, I didn't read the book often but I still get good grades on the quizzes. The readings were always just very confusing to me and I thought I learned more in class taking notes.

5. *The Course Overall*

5.3) Please discuss any and all strengths and weaknesses related to this course:

- I am a senior so I will not be taking anymore classes about this subject. However, it made me wish I took more political classes during my time here. He made the class very interesting and related it to real world scenarios. It is very important to learn about this topic.
- I enjoyed taking Professor Scausos class and believe it was a positive learning environment
- My strengths in learning were related to things I was aware of prior to this class, such as global warming or racism and things like that. However, my weaknesses came when we learned about things I didn't know of like power and other topics like that. Overall, though, I

really enjoyed this course and I thought it was something that really helped me to understand the world around me!

- The professor was very effective in this class. He established a system of classroom participation that I really liked and thought was very effective. The only criticism I would have would possibly to allow more opportunities for people to participate.
- very intelligent, ask student questions, keeps me educated and knowledgable on everything.
