

# High School Dual Enrollment Options

MIAT College of Technology High School Dual Enrollment programs gives high school students the opportunity to attend college during the normal school day before graduating from high school.

## Students must:

- » Meet all high school/school district and MIAT requirements for dual enrollment, including being in academic good standing with the high school
- » Provide a completed High School Dual Enrollment Application
- » Complete an interview with MIAT's Dual Enrollment Coordinator or Instructor

## Why MIAT?

MIAT is a technical college with programs designed for the “hands-on” learner. MIAT offers associate degree and certificate programs in aviation, energy, heating and cooling and global logistics and dispatch. MIAT's dual enrollment program offers high school students the opportunity to earn credits toward a degree or certificate from MIAT in either aviation or energy.

## What is an Aviation Maintenance Technician?

An Aviation Maintenance Technician or an Airframe and Powerplant Technician has a Federal Aviation Administration (FAA) certificate that allows him/her the opportunity to work on any US registered aircraft.

## What is an Energy Technician?

An Energy Technician has the knowledge and expertise to enter the energy industry with confidence and integrity to perform maintenance on wind turbines, gas turbine engines, boilers and electrical systems.

## What are MIAT's High School Dual Enrollment Options?

AVIATION POWERPLANT TECHNICIAN		ENERGY TECHNICIAN
1 YEAR	2 YEAR	1 YEAR
11 <sup>th</sup> grade students may apply to participate in MIAT's Powerplant Technician program during their senior year. Classes meet for one-half of the school day and students finishing the one-year program will have completed the introductory courses in MIAT's Aviation Maintenance Technology associate degree or Airframe and Powerplant certificate program.	Students in 10 <sup>th</sup> grade may apply to participate in MIAT's Powerplant Technician program during their junior and senior years. Classes meet for one-half of the school day and students completing the course accumulate 1200 clock hours of training making them eligible to test for the FAA Powerplant license.	Students in 11 <sup>th</sup> grade may apply to participate in the Energy Technician program during their senior year. Classes meet for on-half of the school day and students completing the one-year program will have completed the introductory courses for the Energy Technology associate degree, Energy and Industrial Technician or Wind Technician certificate programs at MIAT.

## How do I find out if I am eligible?

Contact your high school counseling office or an MIAT representative to discuss opportunities available to you. MIAT requires students to be in good academic standing with their high school in order to attend classes at MIAT.

## How much does it cost?

The school district makes the determination of how much of the tuition and fees will be covered by the district. Any outstanding balances will be the responsibility of the student's family.

## Will I earn college credit?

**YES!** Credits earned will transfer into one of the following MIAT programs: Aviation Maintenance Technology Associate in Applied Science, Airframe and Powerplant Technician Certificate, Energy Technology Associate in Applied Science, Energy and Industrial Technician Certificate or Wind Technician Certificate. MIAT does not guarantee transferability of credits to any other college, university or educational institution. Acceptance of transfer credit is at the sole discretion of the accepting school.

# High School Dual Enrollment Application

This is the initial application to MIAT College of Technology for high school students who wish to take courses at MIAT before high school graduation. Send the completed application and a copy of your transcripts to the attention of High School Dual Enrollment.
