### Individualized and Personalized Instruction

At Sonlight Bay Christian Consortium, LLC, grade level configurations vary. Students are assessed and receive group and/or individualized instruction based upon their progression within each academic subject. While there are minimum standards of knowledge that are to be attained, there is however, no limit imposed upon a student as to how far he/she may progress. The goal is to challenge each student’s capacity while cultivating his/her God-given potential.

Personalized instruction comes into play as every student will be independently engaged in one or more age and skill appropriate Passion Projects throughout the year. Their gifts and talents will be utilized to solve real world problems. This project is one that is exciting and of great interest to them. The students are at the helm, and this is where academics meets the real world. When possible, they will have a mentor to guide them. Throughout the process, they will: conduct research and interviews, create products, write essays, create blogs, and develop portfolios. They may send emails, texts, and make telephone calls as necessary. Not limited to these tasks, they will be required to apply time management skills and develop schedules to complete projects in a timely manner. Of course students will adhere to strict safety guidelines. As the final step, students may use a variety of mediums to present their project(s) before an audience.
