***NOTE:** Noncommercial private ponds require a Private Pond Permit. Fish may not be wild-caught, and only approved fish species based on the location of the pond are allowed. Fish import and transport requires a Live Fish Import/Transport Permit except for private pond permit holders that obtain fish from commercial fish farms and/or in-state pet store fish being transferred to a residence.

IDAHO LEGAL PET GUIDE

POSSESSION			IMPORTATION			TAKE	COMMENTS
Legal as Pets	IDFG Permit	Ag Permit	Legal for Pets	IDFG Permit	Ag Permit	Legal for Pets	
							This is only a guide of animals that <u>MAY</u> be legal in a state. Due to the extensive amount of laws involved that are constantly changing, UAPPEAL cannot guarantee the accuracy of the information. Users are responsible for checking all laws BEFORE getting an animal.

SUMMARY: IMPORT - Import of wildlife requires IDFG Wildlife Import permit except for common ornamental or tropical aquarium fish not listed, domestic types, conventional household pets, and game birds. Bans import of invasive fish. Has approved species import list. Rest are approved on a case-by-case-basis. Fish not from pet store or being transferred from commercial aquaculture facility to pond under private pond permit need IDFG Fish Transport/Import Permit.

OTHER - Wolves (any canine resembling wolf) must be reported in 3 days with permanent tattoo. Large predatory wildlife/big game cannot be taken from the wild, but small predatory wildlife can. Deleterious exotic wildlife need a Deleterious Exotic Animal Possession permit. Invasive species that are legal need an Invasive Species Possession Permit. Certain native nongame are protected and cannot be possessed as pets. Captive-bred migratory game birds are legal without an IDFG permit. Most other species are legal as pets.

DISCLAIMERS:

* The laws listed above lists whether a species to legal to possess and import according to state laws and then any federally protected species with stricter regulations than the state. **Be sure to review all federal laws** as some ban certain species as pets or make it legal to possess a species but bans their interstate import in commerce or purchasing across state lines (you can still move with your animals across state lines).

*For states that do allow keeping wild-caught native species as pets, it is usually limited to game birds, game animals, furbearers, reptiles, amphibians and invertebrates. Such taking usually requires some type of hunting or fishing license **in addition to any required captive wildlife permits**. All laws must be followed, including daily bag and possession limits, seasons, size limits and location specific regulations.

* These guides are usually based on state fish & game laws, state agriculture and health import laws, and marine resource laws except when otherwise noted. Check laws for all requirements. Additional state laws may apply, including general animal control and care, livestock, and other health laws.

* Species lists vary on each state page depending on each state's law. While we try to include as many native vertebrate species as possible, we cannot guarantee that all species are covered above.
