

Dan Young, BCN, CNC

Clinician - Author - Lecturer

Radio Show Guest

Letter of Recommendation

Letter of Recommendation

This letter is to confirm that Dan Young from the Cheyenne Country Doctor has been on my station 650 AM KGAB on several occasions. From 2004-2007, he was on once a month on the "Talk of Cheyenne" show with our host Jill Cumer.

Dan addressed issues covering topics related to diabetes, macular degeneration, inflammation, thyroid, nutrition, herbology, heart diseases, allergies, brittle bones, weight loss, body cleanses, joint and bone care for arthritic conditions, women's and men's health issues, lung and liver function, stress and adrenal support, and more.

In this process, not only did Dan kick off the shows explaining the benefits and results of the health information, but took calls from the listening audience. Dan Young "listened" to the caller, answering the questions in a professional and concise manner, allowing the show to grow because the audience felt comfortable by his personality and style.

Dan has a very personable manner (talking in) or (enveloping) each individual and making them feel like there is not only hope for their problem, but also a solution. This is very appealing to a person who has been fighting a chronic issue for too long. I have on record several client testimonials that display this attribute extensively.

If you would like to contact me about the above recommendation or for information regarding Dan Young, please feel free to do so at GAP West Broadcasting Cheyenne 307.632.4400 or at robinmosley@gapbroadcasting.com

Sincerely,

Robin Mosley
