Non-Medical Underwriting Guide

It is the responsibility of the Underwriting Department to properly evaluate all applicants for insurance coverage. This requires sound, underwriting practices consistent with Foresters Financial™ philosophy for the selection of risks. In order to provide the best possible service, Foresters Underwriting Team must also rely on the producer to develop complete and accurate information at point of sale.

This manual is a guide intended to help the producer understand the probable underwriting action for commonly encountered medical histories. Naturally, the final action on an application is the decision of the Underwriter, based upon the varying circumstances that each particular case may present. It is important to recognize that the underwriting guide is meant as a basis for decision-making, and that other factors, including Foresters Underwriter's judgment, may affect the final decision.

This document was prepared for the exclusive use of appointed producers. It is not intended for public distribution, nor is it to be used in any solicitation or marketing of Foresters products.

INTRODUCTION

You are an important part of the underwriting process and as participant in the sale, processing, underwriting and issue of our life insurance certificates we want you to be familiar with our underwriting philosophy and practices. Attention to these guidelines will help to speed up certificate issue and to explain underwriting decisions when the policy is placed.

The most important step in the underwriting process is accurate detailed answers to all questions on the application. It is important that the application show detailed health history for all proposed insured's to assure that it may be underwritten in an accurate and timely manner. Failure to properly record complete and accurate information could result in either unnecessary delays or serious problems at time of claim.

PRODUCT INFORMATION

Individual life insurance coverage is provided by Foresters Financial™, a trade name and trademark of The Independent Order of Foresters (a fraternal benefit society, 789 Don Mills Road, Toronto, Ontario Canada, M3C 1T9) and its subsidiaries.

Underwriting guidelines, procedures and forms may vary by type of life insurance and state. Be sure to consult all materials relative to your specific product and state. By following the procedures outlined in this manual and the marketing guidelines you will maximize your percentage of issued life insurance applications.

FIELD UNDERWRITING

As an appointed producer you are authorized to solicit, write applications and otherwise transact the business of insurance in any state where you are both properly licensed by the state and authorized by Foresters to conduct business.

As an appointed producer you may not solicit applications in any manner prohibited by or inconsistent with the provisions of Foresters rules, regulations, or policies. If you have any questions regarding any type of solicitation transaction please contact your agency or refer to Foresters Producer Portal (ezbiz) Solicitation Rules in the Contracting Section.

The following practices are not acceptable:

1. Applications altered or corrected with regard to the signature of the proposed insured, the date signed, the city and state of the applicant, the producer's signature, or any changes to information deemed to be material to the issuance of the certificate, unless initialed by all parties to the contract (agent, owner and proposed insured).
2. Stamped signature rather than handwritten ink signatures.
3. Typed applications are acceptable with a handwritten signature.

Good Field Underwriting is critical to the success of Insurance Operations, and consists of more than just careful questioning of the proposed insured.

The following suggestions should help you and your clients in obtaining coverage as quickly as possible and on the most equitable basis:

1. Furnish complete information on past medical history to include date of first diagnosis, type of treatment, dates and physician information.
2. If medical history is involved, identify the disease or condition for which treatment was obtained.
3. Complete all underwriting questionnaires as appropriate.

Do not underestimate the proposed insured's knowledge of the diagnosed condition or the reason for the operation or treatment.

1. The writing producer is never authorized to disregard a proposed insured's answers, or to impose his or her judgment as to what is or is not important to record. The writing producer is never authorized to approve or alter an application for the proposed insured.
2. Only the Underwriting Team can make the final decision; therefore, never suggest or promise that coverage will be issued.

RESIDENCE/CITIZENSHIP

The applicant's primary residence must be in a state where the product is approved for sale, state of solicitation or residence. Check the product availability maps on our agent website <https://portal.foresters.biz/> for availability details.

Below are Foresters general guidelines, which are subject to underwriting discretion.

Foreign Nationals:

- Must have insurable loss in the US, such as a house, property, or investments.
- Must reside in the US a minimum of 6 months annually. Applicants must have a valid SSN and a work visa or other immigration visa that validates status in the United States.
- Must be citizens from a country that is insurable.
- If residing in the US for less than one year a paramedical exam with blood and urine will be required over and above the usual Age & Amount Requirements.
- Maximum amount of insurance is \$500 000 and maximum age is 65.
- Must be employed or spouse or dependent of employed individual in the US.
- Must have valid photo identification (driver's license, passport).

FOREIGN TRAVEL/RESIDENCY

Applicants contemplating foreign travel or residence may be subject to unsatisfactory living conditions, and increased risk of infectious disease and accident hazards.

Coverage is not available for applicants planning to reside in a foreign country indefinitely.

Travel in the course of business or pleasure will be considered up to and including 12 weeks. Underwriting foreign travel/residency will vary depending on international risks and how changes in political, security and health "environments" could impact the risk in that area. It is advisable to call Underwriting for a more accurate risk assessment as travel advisories are always changing.

MILITARY

Foresters welcomes applications from active duty military personnel (as long as the solicitation, application completion or sale did not occur on a military installation) and each case will be underwritten based on individual consideration and state laws. State regulations require the use of point of sale disclosure documents when selling to active duty military personnel. Insurance will not be offered to individuals who have been deployed or have received notice of deployment.

It is also important to note that Foresters is currently not registered to sell on military installations.

Individuals on "Active Duty" or full-time duty in the active military service of the United States, including members of the National Guard and Reserves, while serving under published orders for a period for 31 days or more are not eligible for riders that have a War Exclusion Clause, including ADR, DIR, and Waiver of Premium Benefit. Please complete a Military Questionnaire or provide the following details on the application:

- Branch of service
- Present duty status
- Current rank
- Length of present assignment
- Military occupational specialty
- Indicate whether supplemental or hazardous duty pay based on duties is being collected
- Indicate whether the insured will be transferred overseas, if so, where?
- Indicate whether the insured will be transferred to a new unit
- Indicate whether the insured or their unit will be alerted for duty (if presently in Reserve of National Guard)

OCCUPATION

The occupation of a proposed insured is a major factor in their eligibility and many of those occupations may eliminate an applicant from qualifying for the basic product and possibly DIR (accident only) and DIR (accident & sickness). Applicants with occupations that are exceptionally hazardous will be declined or rated, for example:

- Any occupation that involves working above certain heights
- Any occupation that involves handling explosives
- Any occupation that involves handling hazardous materials

For Disability Income Protection Rider (accident only) please refer to Page 15 of this Guide for excluded occupations or for Disability Income Rider (Accident and Sickness) please refer to Foresters Accident & Sickness Disability Income Rider Occupational Classification Listing.

AVOCATIONS

Examples of recreational activities that may eliminate a proposed insured from Non-medical issue include:

- Scuba diving. The decision depends primarily on the level of certification and depths. Please have applicant complete Scuba and Skin Diving Questionnaire.
- Motorized racing (automobiles, motorcycles, boats). The decision depends on the level of competition, size and power of engine, etc.
- Hang-gliding, skydiving. Please have applicant complete Aerial Sports Questionnaire.
- Mountain/Rock Climbing. Please have applicant complete Climbing and Mountaineering Questionnaire.

BENEFICIARY DESIGNATION

The beneficiaries must meet the insurable interest requirements under state insurance law. In addition, to comply with legislation relating to fraternal benefit societies, "...benefits (must) be paid to the member or to the estate or dependents of the member (life insured) either directly or indirectly". Please refer to Foresters Producer Portal (ezbiz) Beneficiary 101.

TEMPORARY INSURANCE AGREEMENT (TIA)

The TIA is a temporary insurance agreement that allows the proposed insured to have coverage during the underwriting process. It is available to applicants who, on the date the application is being signed, are more than 15 days old but have not had their 71st birthday and for face amounts applied for up to a maximum of \$1,000,000. The proposed insured must truthfully answer "No" to the 3 questions asked in the TIA agreement and provide their first month premium for the TIA to take effect. The maximum payout is the lesser of the face amount applied for or \$500,000.

NON-MEDICAL UNDERWRITING

Non-Medical underwriting requires answers to the Lifestyle Questions, Part 1: Medical Questions and Other Insurance questions on the application. A Pharmacy and an MIB check will be run on every proposed insured. If the proposed insured does not qualify for non-medical rates, the application will be declined. In some situations a new application will be required for a fully underwritten product. Non-medical limits are based on the proposed insured's age nearest and total non-medically underwritten insurance in force with Foresters and are as follows:

YOUR TERM NON-MEDICAL ISSUE LIMITS

Age	Face Amount
18 - 55	\$400,000
56 +	\$150,000

SMART UL NON-MEDICAL ISSUE LIMITS

Age	Face Amount
0 - 15	\$150,000
16 - 55	\$400,000
56 - 75	\$150,000

ADVANTAGE PLUS NON-MEDICAL ISSUE LIMITS

Age	Face Amount
0 - 15	\$150,000
16 - 55	\$400,000
56 - 75	\$150,000

For Advantage Plus, if either the 10-Year or 20-Year Term Rider is added at issue, the maximum rider benefit amount is:

- The maximum rider benefit amount for issue ages 18-55 is \$400,000, minus the total face amount of the base certificate, plus the amount of paid-up additional insurance purchased under a Single Payment Paid-up Additions Rider (if applicable), plus any other non-medical coverage currently in force with Foresters.
- The maximum rider benefit amount for issue ages 56-75, is \$150,000 minus the total face amount of the base certificate, plus the amount of paid-up additional insurance purchased under a Single Payment Paid-up Additions Rider (if applicable), plus any other non-medical coverage currently in force with Foresters.

BUILD

OVERWEIGHT

Of significant importance in evaluating one’s insurability is the relationship of an individual’s height and weight. An overweight individual has an increased incidence of cardiovascular disease and renal disease. In addition, there is added stress to the weight bearing joints and bones. Obesity may also be associated with other disorders such as diabetes and other endocrine disorders.

UNDERWEIGHT

Underweight generally is of less significance than overweight concerning long-term disabilities and illnesses, however, abnormally thin individuals may have difficulty gaining weight because of nutritional deficiencies, or a chronic underlying disease. Frequently, thin individuals have a low resistance to acute illnesses.

WEIGHT REDUCTION

When weight reduction has been accomplished, and the weight has been stable for one year, full credit will be given for weight loss. If there has been weight loss and the weight has not been stable for a period of 12 months, half credit will be given for the weight lost. Example: Female 5’7”, 231lbs; lost 36 lbs within 2 months. If current weight is 195 lbs, allow ½ credit by adding 18 lbs, for a total of 213 lbs, before referencing the appropriate build table.

SUBMITTING INFORMATION

If all the available information is submitted with the application, it is more likely that a decision can be made with a single review.

For non-medical cases, Foresters requires additional information for each "Yes" answer in the Lifestyle and Medical Questions sections. You can help speed up the Underwriting process by completing, at the time of the application, the Underwriting Questionnaire that is applicable to each "Yes" answer. The following questionnaires are the most common and should cover most of your cases:

- Alcohol Usage
- Chest Pain
- Cyst, Lump or Tumor
- Diabetes
- Drug and Substance Usage
- Mental Health

For all other "Yes" answers, you can provide the following details in the "Additional Information" section of the application:

- Diagnosis
- Date first diagnosed
- Treatment
- Prescribed medications and equipment
- Medical facilities
- Dates of hospitalization and duration of each stay
- Physicians' names, addresses and telephone numbers (if different from question 19 in the application)

The full list of Foresters questionnaires is available for those who wish to use them, but you may not need them if complete details are provided in the "Additional Information" section (*Impairments with available questionnaires are noted with a "Q" in the Medical Impairment section*).

Additional Questionnaires:

- Activities of Daily Living (required for ages 75+)
- Aerial Sports
- Arrhythmia/Atrial Fibrillation/Irregular Heartbeat
- Arthritis
- Attention Deficit Hyperactivity Disorder or Attention Deficit Disorder
- Aviation
- Back and Neck
- Benign Prostate
- Climbing & Mountaineering
- Digestive System Disorders
- Epilepsy and Seizure Disorder
- Foreign Travel
- Hazardous Sports
- Heart Murmur
- High Blood Pressure/Hypertension
- Kidney and Urinary Disorders
- Lupus
- Military
- Prostate Cancer
- Respiratory Disorders
- Scuba and Skin Diving
- Sleep Apnea/Sleep Disorder
- Tobacco

All questionnaires can be found in the "Forms & Brochures" section of Foresters producer website under "Underwriting & Questionnaires"

In the event of insufficient/no details provided on the application for a "Yes" answer or of a discrepancy between information from MIB/Pharmacy checks and the application, Foresters will contact the producer for further information and may request to have a questionnaire completed.

IMPAIRMENTS

Some medical impairments cannot be considered for coverage. Please refer to the attached Impairment Guide.

Certain combinations of impairments are often uninsurable. The following are some examples:

- Chronic kidney disease with high blood pressure
- Depressive and/or anxiety problems in combination with alcohol abuse
- Diabetes in combination with Coronary Artery Disease (CAD), Cardiovascular Disease (CVD), or kidney disease.

UNDERWRITING IMPAIRMENT GUIDE

Although clients may qualify for Non-medical products, if ratable up to 200% mortality (+100, or 4 tables or table D), the impairments listed below as "decline" should not be submitted on a Non-medical basis.

The following guide applies to single impairments. Individuals with multiple impairments may not qualify.

NON-MEDICAL IMPAIRMENTS

DISABILITY INCOME RIDER (ACCIDENT ONLY)

The general underwriting guideline is to accept the rider other than in the presence of a risk, not covered under the contract rules, that clearly predisposes the applicant to an accident and ensuing disability. Applicants rated up to +150 will be eligible. Health history will otherwise not be a consideration for underwriting the rider, other than in certain conditions such as severe musculoskeletal disorders that predispose an individual to accidents and disability.

The DIR will not be available to the following clients:

- retired
- unemployed
- students
- homemakers
- self-employed who work more than 50% of time from home
- who work less than 30 hours per week
- who work less than 26 weeks per year
- who have a recent driving record with serious moving violations
- who have a history of repeated periods of disability
- engage in a hazardous occupation (listed below)

The following list represents hazardous occupations, more likely to lead to accidents causing disability and consequently, the DIR coverage will be declined. The list is not exhaustive however, Foresters underwriting will review each application.

Industry	Occupation
Athletes (Professional)	Hockey Player
	Jockey/Horse Breaker
	Football Player
Construction	Blaster/Explosive Handler

CERTIFICATE CHANGE INFORMATION

OVERVIEW

These types of changes include requests from the applicant or producer to change the coverage either by increasing or decreasing benefits, adding or deleting benefits, adding or deleting family members or reinstating coverage that has lapsed. Changes that increase Foresters liability require underwriting approval.

UNDERWRITING POLICY CHANGES

All medical history is reviewed including claims information on file. Current underwriting guidelines are followed and insurability requirements must be met.

As with New Business applications, the underwriting review process may include requests for information through Attending Physicians Statement, Exam, Blood Profile, Inspection Report, Motor Vehicle Report (MVR), or MIB Inc.

- Benefit changes - If current guidelines would require modification to coverage with a rating, it is normal underwriting procedure to deny a benefit change to avoid compromising current benefits.

90-DAY CHANGES

Changes made to certificates within 90 days of issue. Changes could include:

- Increasing or decreasing certificate face amount
- Increasing or decreasing rider coverage amount
- Adding or removing riders (e.g. Accidental Death Rider)
- Changing the plan type (e.g. changing from a 20-year term to a 15-year term)

To request changes within 90 days of certificate issue, we require the following:

- The original certificate issue package to be returned.
- A signed letter from the owner, advising of the requested changes.
- If the request is for an increase in coverage (e.g. face amount increase or addition of a rider), a check from the owner for the difference in premium.

Note: These changes are effective as of the original certificate issue date. Therefore, ensure that the check will cover the difference in premium from the original issue date to the date the request is being submitted.

After the change has been completed, a new certificate issue package will be provided to you for delivery to the owner. The New Business delivery processes should then be followed.

POST 90 DAY CHANGES

Changes made to certificates beyond the 90 day change period can include:

- Decrease in certificate face amount
- Decrease in rider coverage amount
- Addition or removal of riders
- Change to non-tobacco premium basis
- Reduction or removal of rating

To request changes beyond the 90 day change period, we require the following:

- A properly completed and signed Application for Change.
