DSR Services, LLC is a multi-scope subcontractor specializing in Government projects as well as Industrial and Commercial applications. DSR provides several scopes of work in the area of Security Infrastructure including all types of custom fabrication solutions. Our crews are professionals who understand government work standards and USACE safety protocols and expectations. DSR's reputation is continuing to be built using our three word mantra; Service, Integrity & Performance.

Here at DSR, honesty, loyalty and a strong work ethic are key ingredients to our success. DSR is known for getting the job done on time, on budget and with a minimum amount of inconveniences. Our customers know that they can count on us to offer those solutions and creative ideas that enable most obstacles to be overcome.

"Safety First" is not just a slogan. Our in-house safety program and drug and alcohol program were developed and implemented by our safety director who also conducts ongoing safety meetings and annual training to our employees. All DSR service trucks are stocked with a copy of our Safety Program, MSDS Sheets, 1st Aid Kits and Emergency Protocol Instructions. All equipment and vehicles contain required Fire Extinguishers.

Our superintendents are knowledgeable, experienced professionals who treat every project with care, respect and integrity. They are aware and concerned with OSHA requirements and the smooth and safe completion of the project. Our superintendents are OSHA 30 hour trained and our foremen are OSHA 10 hour trained. Our employees will perform top quality workmanship with a strong work ethic and integrity. They will make every effort to satisfy our customers' expectations with courteous, dependable and professional service.

Insurance coverages include Commercial General Liability with limits of \$1,000,000 per occurrence and \$2,000,000 aggregate. Commercial General Liability policy includes endorsements for blanket additional insureds and blanket waivers of subrogation as required by written contract. Commercial Auto coverage with liability limit of \$1,000,000. Excess Liability policy with a limit of \$1,000,000. Workers' Compensation coverage with a limit of \$1,000,000 and including blanket waivers of subrogation.

DSR Services, LLC installed chain link fencing, elephant restraint fencing and hot wire fencing on the OKC Zoo Asia Exhibit project. Their expertise and creativity resulted in a superior installation. They worked well with other trades and handled their material purchases, fabrication and installation in a professional manner. We look forward to continuing our business relationship with DSR Services on future projects.

Tom Lippert
Sr. Vice President

DSR Construction Services

DSR is committed to Customer Service, Long term Customer Relationships, Quality Workmanship and the safest most efficient and productive completion of our customer's project needs. DSR Services, LLC

Duane:

Tiffany and I want to thank you and your company for the great products and the professional installation. The six foot site-proof fence that runs north and south has withstood 70 MPH west winds without ever a wobble. The four rail PVC horse fence gets used by all the horses as a scratch post and still looks as good as the day it was installed. Again, we appreciate the way you have worked with us around our schedule, the timely manner in which you start and complete the work and the cleanliness you and your crews leave the work area upon completion.

We are looking forward to working with you and your company in the future on all of our fencing needs in Shawnee.

Sincerely,

Joe Midgett

DSR SERVICES LLC

Scott and all 'the guys',

I want to say job WELL DONE! DSR is a well equipped company for the products and service they provide. You're committed to your projects and stay on schedule. It was a pleasure working with a company with such professionalism, efficiency, and integrity.

Thank you

Hugh Harrell

Attn: Duane W. Richardson

Dear Duane,

I wish to thank you and your staff for the professional attitude and courtesy you bring to the job each day. Your spirit of cooperation and attention to safety should be rivaled by most construction companies in the state. The craftsmanship, attention to detail and pride your company possesses shows in every person and every thing you undertake. We are proud to have DSR on our team and on our projects!

Sincerely,

Centennial

Looks great! My city manager was amazed with the job you did and was happy the City was able to complete such a quality project. He wants to look at doing all of our subs that way when we have some more capital (a year or 2). I will definitely be calling you when we are ready to do more. We are VERY pleased with your work.

Re: DSR Services, LLC
Subject: Recent Performance

I have had the opportunity to employ DSR on a recent Army Corp of Engineer Project at Tinker Air Force Base, Oklahoma City, OK.

Their initial preconstruction services (Safety Plans, Product Submittals, Shop Drawings, etc.) were presented in a timely fashion and with professional quality.

The scope of work for DSR included concrete coring, welding and fence erection with many incidentals relating to the scope. DSR not only manned up the project but also possessed and used an array of equipment and in combination thereof, performed the work in less than half the performance time I had allotted in the schedule for this work.

The materials used, workmanship and quality of the installation were exceptional and I would not hesitate to sue DSR for future projects.

Regards,

Southwind Construction Services, LLC

Re: Job Performance

Mr. Richardson,

It is not very often in the construction industry to find a company that will actually follow through with all of the promises they make. I am writing to tell you how much I appreciate you and your staff of professionals. We have completed a lot of projects together and I don't know of another company I trust to be honest, professional and on time every time like I trust you.

Thank you for all the hard work,

JENEYCO, INC.

May 16, 2008

My company has done business with DSR Services for many years and the quality of workmanship and his reliability are just two reasons that Jeneyco continues to refer clients to DSR.

It is my opinion that Duane Richardson and his staff at DSR Services are an asset to the community and that they strive to give their customers the very best service possible on each and every job.

Duane Richardson
DSR Services, LLC
Letter of Recommendation

To whom it may concern:

We at OGE contracted with DSR Services in 2007 to erect an eight foot decorative concrete wall at one of our major service centers in Oklahoma City, OK. This was an expansive project of over one mile of linear footage of wall system. This was DSR Services first major project for our company. I had never worked with Duane and his company in the past and was somewhat apprehensive whether his company could take on a project of this magnitude.

I could not be more pleased with the outcome of this project. Pictures cannot convey the beauty and quality of the finished product. DSR Services has exceeded every expectation that I had with their honesty, hard work, professionalism and character. They overcame any and all obstacles that are inherent to any project of this magnitude with quick and viable solutions, many at their own expense, to stay within the contractually agreed budget.

I cannot express enough accolades for this fine company and the products that they represent. DSR Services has definitely become my fencing and wall contractor of choice. I will make every effort in the future to insure that DSR Services will be our partner in future projects.

Thank you:

Duane,
Thanks for your continued outstanding performance on our projects. Your quality is unmatched as well as your efforts to go above and beyond to exceed our high expectations. We sincerely appreciate your work as a standout in the business. You will continue to be our contractor of choice for all of our fencing needs.

To Whom It May Concern:

It is our pleasure to highly recommend Duane Richardson and his company DSR Services. We have used DSR Services on multiple occasions. We have found his work to be of the utmost quality. Duane and his crew have gone above and beyond in service to make sure that we had the best design and product available at the best price.

The gates and fences at our office presented some challenges but Duane and DSR Services made sure everything fit together and worked perfectly. DSR Services also completed the entire fence around our pool and our home. The black fence around the pool looks wonderful and the white fence around our acreage add so much to our property! All the work was done with quality fencing and yet reasonable pricing.

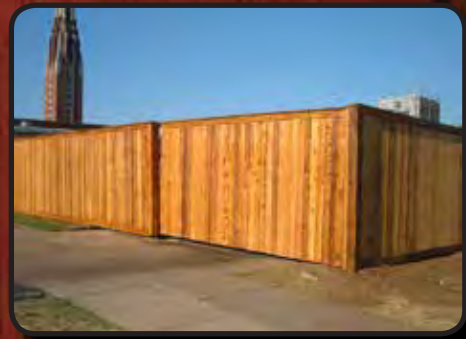

We very pleased with DSR Services and think you could not find a better company to provide you fencing.

Sincerely,

Ben and Peggy Kates

Duane is a good Christian man who does what he says he will do. His work is high quality and first-rate. He was one of the few contractors who worked on our project who finished on time and on bid.

RE: Post December 2007 Ice Storm Recovery Projects

Duane:

I just wanted to take a moment to say thank you to you and your crews for your untiring efforts to return our university to a state of normalcy, following the catastrophic ice storm we experienced last December.

Of special note, I would like to comment on the professional manner in which you handled our baseball field netting. As you know given the proximity of our baseball field to public thoroughfares, netting had to be replaced prior to the beginning of the baseball season. Your use of structural engineers and communication with the netting manufacturer insured success and is greatly appreciated. Not only has the need for the netting been satisfied, but it has been done in a very aesthetically pleasing manner.

Once again, thank you for all you have done for Oklahoma City University. We look forward to working with you on future campus projects. If you ever need a reference, please consider me as a source.

Sincerely,

Glede W. Holman, J.D.

RE: DSR Services

To Whom It May Concern:

Earlier this year I had the pleasure of employing DSR Services for the installation of approx. 7,000 feet of pipe and cable fence. I had a large residential/farm project underway in North Oklahoma County which included new perimeter fencing.

I have been in the construction industry in residential, commercial, farm, industrial and hotel for 29 years now and have experienced the full range of subcontractors from the best to the worst. In the years I have been in business I have found that working with honest subs makes my project flow much more smoothly and the end results are always a higher quality.

It is with great pleasure that I recommend this company with the highest of praise. Not only is DSR an honest company to work with, their level of attention to the details I required, the planning, staffing, materials used, and equipment provided to ensure, were all top notch. Duane and Scott both seem to great lengths to ensure that everything needed to make my project successful was on the job, when it was needed and assembled by a staff that is totally professional. I truly enjoyed everyone on the job they all worked efficiently and with the confidence that comes with knowing your subs well.

For anyone that would like to talk to me directly about my experience with DSR Services, please feel free to call me anytime.

Sincerely,

Rob Hollaway

May 2009

Dear Duane,

David & I want to thank you and your team for the beautiful job you did on our fence and custom gates. The project not only meets our functional needs, but exceeds our expectations of beauty and strength. We've not met too many folks which pay more attention to detail than I do -- until you -- and that says a lot (ask my husband!). We also appreciate the suggestions you made to us that we would not have known to ask for, with materials, design, etc. The friendly, diligent and respectful manner in which your team worked was also very appreciated. We'll be calling you again and again for the lifetime of projects we have on our land. Thank you for being trustworthy and reliable and delivering a product beyond our expectations. We greatly appreciate you.

God Bless,
Paula & David

We have used DSR for over 5 years. They have completed many major jobs for us at the ranch, such as PVC decorative fencing, Barbwire fencing, corrals, dozier work and dirt work. Duane and his crew are very professional and take great pride in their work. We at the ranch use only DSR for fencing needs and have highly recommended them to other people.

Sincerely Jamie Creamer
